

Fiber Network Expansion Project

Project Description:

Technology is an ever-growing part of our everyday lives. That is true at OPPD as well. As utility technology evolves, OPPD is constantly looking for new ways to ensure that we can deliver affordable and reliable power to our customer owners. As part of that effort OPPD is in the process of installing fiber optic cable for OPPD's private use to connect important locations throughout our service territory. OPPD has contracted with Bauer Underground, Inc. and its sub-contractors to bury this fiber optic cable.

Work for each project may last up to 3 months, barring weather or other unavoidable delays.

N. 138th St between Bennington Rd and State St

Project Start Date: March 2024

Crews and vehicles may be marked with their company logos.
