

Construction is progressing at OPPD's Turtle Creek Station, one of two natural gas plants being built.

Quick Facts

Data as of Dec. 31, 2022

Our mission

Provide affordable, reliable and environmentally sensitive energy services to our customers.

Company highlights

- Operating since 1946
- Publicly owned
- Governed by elected board
- Headquartered in Omaha, Nebraska
- Serves a population of 878,000 in 13 counties
- 5,000-square-mile service territory
- 12th-largest public power utility in U.S. per number of customers

Numbers that make cents

Generating capability
2,671.4 megawatts (MW)

System peak load
2,545.8 MW

Total utility plant
\$5,546,856,000

Megawatt-hour sales
16,516,668 MWh

Number of employees
1,872

Average number of electric retail customers
401,410

Payments in lieu of taxes
\$40,462,000

Capital expenditures
\$551,032,000

Operating revenue
\$1,400,784,000

Average cost per kilowatt-hour – residential
11.68 cents

Average annual use – residential
11,194 kilowatt-hours

OPPD rates are below the national average.*

Renewables for 2022

as a percentage of Retail Sales

Wind	33.0%
Hydro	2.9%
Landfill gas	0.4%
Solar	0.1%
Total	36.4%

Public power works for you

Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

- **Local control.** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.
- **Reliability.** Public power utilities are committed to maintaining reliable service.
- **Affordability.** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.
