Quick Facts
Data as of Dec. 31, 2022

Our mission
Provide affordable, reliable and environmentally sensitive energy services to our customers.

Company highlights
• Operating since 1946
• Publicly owned
• Governed by elected board
• Headquartered in Omaha, Nebraska
• Serves a population of 878,000 in 13 counties
• 5,000-square-mile service territory
• 12th-largest public power utility in U.S. per number of customers

Numbers that make cents
Generating capability
2,671.4 megawatts (MW)
System peak load
2,545.8 MW
Total utility plant
$5,546,856,000
Megawatt-hour sales
16,516,668 MWh
Number of employees
1,872
Average number of electric retail customers
401,410

OPPD rates are below the national average.*

Public power works for you
Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

• **Local control.** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.

• **Reliability.** Public power utilities are committed to maintaining reliable service.

• **Affordability.** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.
