Quick facts

Data as of Dec. 31, 2020

Our mission

Provide affordable, reliable and environmentally sensitive energy services to our customers.

Public power works for you

Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

- **Local control.** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.
- **Reliability.** Public power utilities are committed to maintaining reliable service.
- **Affordability.** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.

Renewables for 2020

as a percentage of Retail Sales

- Wind: 34.4%
- Hydro: 3.4%
- Landfill gas: 0.5%
- Solar: 0.1%
- Total: 38.4%
