Quick Facts
Data as of Dec. 31, 2021

Our mission
Provide affordable, reliable and environmentally sensitive energy services to our customers.

Company highlights
- Operating since 1946
- Publicly owned
- Governed by elected board
- Headquartered in Omaha, Neb.
- Serves 853,000 people in 13 counties
- 5,000-square-mile service territory
- 12th-largest public power utility in U.S. per number of customers

Numbers that make cents
Generating capability 2,692.1 megawatts (MW)
System peak load 2,509.0 MW
Total utility plant $5,011,756,000
Megawatt-hour sales 15,730,502 MWh

Payments in lieu of taxes $38,555,000
Capital expenditures $313,561,000
Operating revenue $1,496,920,000

Average cost per kilowatt-hour – residential 11.38 cents
Average annual use – residential 11,164 kilowatt-hours

Renewables for 2021
as a percentage of Retail Sales
Wind 31.6%
Hydro 3.3%
Landfill gas 0.4%
Solar 0.1%
Total 35.4%

OPPD rates are below the national average.*

*According to preliminary December 2021 figures from the Energy Information Administration.

Public power works for you
Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

- **Local control.** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.
- **Reliability.** Public power utilities are committed to maintaining reliable service.
- **Affordability.** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.
