Pre-Committee Agenda

FINANCE PRE-COMMITTEE MEETING
WEBEX VIDEOCONFERENCE
August 4, 2020  8:00 AM – 9:00 AM

1. Q2 2020 Financial Report and Dashboard (20 min)

2. Rate Blueprint (10 min)
a. Objective: High-level discussion on rate design activity to align expectations. Not designed to discuss specific rate actions.

3. Block Rate Elimination Project Update (10 min)
BOARD OF DIRECTORS

August 11, 2020

ITEM

Annual Report of the Interest Rate on the Customer Security Deposits

PURPOSE

Review the formula for calculating the interest and report the current year’s rate

FACTS

a. The District sets the interest rate to be paid on Customer Security Deposits on an annual basis. The current interest rate of 2.00% has been in effect since September 1, 2019.

b. The interest rate is based on paying customers 90% of the one-year average earnings on these deposits rounded to the nearest quarter percent.

c. Applying the most current actual earnings rate to the approved formula provides an interest rate of 1.75%.

d. An annual interest rate of 1.75% will be applied to Customer Security Deposits beginning September 1, 2020.

RECOMMENDED: /s/ L. Javier Fernandez

Retirement Plan – Second Quarter 2020

PURPOSE

To Report the Retirement Plan Fund’s Second Quarter 2020 Performance Results

FACTS

a. The Retirement Plan Fund market value at the end of the second quarter was $1.01 billion. This compares to the market value at the beginning of the quarter of $903.70 million. During the quarter, employee contributions were $3.75 million and OPPD contributions totaled $14.66 million. Benefit payments totaled $25.99 million and the investment market value (net of expenses) increased by $117.22 million.

b. As of June 30, 2020, the Retirement Fund asset allocation was 53.5% Equity, 39.2% Fixed Income and 7.3% Alternative Assets which is within the Investment Policy Guidelines approved by the Board.

c. The Retirement Plan Fund sector performance (net of fees) was:

<table>
<thead>
<tr>
<th>Sector</th>
<th>Market Value</th>
<th>Quarterly Return</th>
<th>Index</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity</td>
<td>$278,259,225</td>
<td>23.3%</td>
<td>22.9%</td>
</tr>
<tr>
<td>International Equity</td>
<td>$263,676,489</td>
<td>19.9%</td>
<td>17.1%</td>
</tr>
<tr>
<td>Domestic Fixed Income</td>
<td>$266,535,638</td>
<td>4.7%</td>

<td><strong>13.1%</strong></td>
<td><strong>12.1%</strong></td>
</tr>
</tbody>
</table>

d. World equity markets rebounded significantly during the second quarter with the Government’s multi-trillion dollar stimulus boosting U.S. markets. The Domestic Equity Index returned 22.9%. Growth outperformed value while small cap companies led mid and large cap. The International Equity Index experienced one of its strongest quarterly returns over the past 20 years at 17.1% primarily due to containment of the virus and the reopening of countries in the Eurozone.

The Domestic Fixed Income Composite Index gained 3.7% for the quarter with high yield and investment grade delivering the strongest performance. The weaker U.S. dollar provided a tailwind for a quarterly Global Fixed Income return of 6.4%.

The Private Real Estate Index decreased 1.3% for the quarter primarily based on write-downs as retail and hotel sectors experienced tenant defaults and historically low occupancy rates.

YTD ACTUALS 2020 - $ 78.6
YTD BUDGET 2020 - $ 115.9

SD Impact:
- **SD-2 Rates** - The District is maintaining a strong financial position reaffirming its commitment to no general rate increase in 2020 and 2021. As was shared during the June SD-2 monitoring report, the preliminary 2019 average retail rate was 8.9% below the regional retail average rates, based on EIA data. The actual 2019 average below regional retail rates will be published in October of 2020.
- **SD-3 Access to Credit Markets** - The 12-month rolling debt service coverage ratio is 2.2 times through June 2020, and is forecasted at 2.0 times at year end. The District’s days of cash on hand is 206 days as of June 30, 2020.
- **COVID-19 Impact** - The District’s financial health and outlook is strong but is being monitored.

HIGHLIGHTS:
- Retail revenues were under budget by 2.4%, or $10.7 million, primarily due to weather variances and reduced sales due to the COVID-19 pandemic. Off-system sales were 20.6%, or $17.7 million, under budget due to lower market prices and energy volumes due to depressed natural gas prices.
- Fuel and purchased power expenses were 14.3%, or $26.4 million, under budget, primarily due to unplanned outages, milder weather and lower purchased power market prices and volumes. The non-fuel O&M expenses were less than budget by 6.7%, or $12.2 million, primarily due to lower production expenses from reduced generation.
- Capital expenditures were 32.2%, or $37.3 million, under budget due to delayed spending primarily on Power with Purpose projects. The District still plans to spend the full $230 million budget prior to year end.

Unaudited results.
Pre-Committee Agenda

SYSTEM MANAGEMENT & NUCLEAR OVERSIGHT
PRE-COMMITTEE MEETING
WEBEX VIDEOCONFERENCE
July 30, 2020  4:00 – 5:00 P.M.

1. SD-9: Resource Planning Monitoring Report (60 min)
   a. Objective: Review and discuss draft monitoring report and determine recommendation for the Board regarding approval
BOARD OF DIRECTORS

August 11, 2020

ITEM
SD-9: Resource Planning – Monitoring Report

PURPOSE
To ensure full Board review, discussion and acceptance of SD-9: Resource Planning – Monitoring Report

FACTS
a. The Board confirmed the Corporate Governance Initiative Charter in December 2014, in order to assess and refine OPPD’s corporate governance infrastructure.

b. The first set of Board policies was approved by the Board on July 16, 2015. A second set of Board policies was approved by the Board on October 15, 2015. A third set of Board policies was approved by the Board on November 16, 2017.

c. Each policy was evaluated and assigned to the appropriate Board Committee for oversight of the monitoring process.

d. The System Management and Nuclear Oversight Committee is responsible for evaluating Board Policy SD-9: Resource Planning – Monitoring Report on an annual basis.

e. The System Management and Nuclear Oversight Committee has reviewed SD-9: Resource Planning – Monitoring Report and is recommending that OPPD be found to be sufficiently in compliance with the policy as stated.

ACTION
The System Management and Nuclear Oversight Committee recommends Board approval of SD-9: Resource Planning – Monitoring Report.

SD-9 Resource Planning

Strategic Directive

The Board of Directors recognizes that the District will have to adapt to the rapidly changing electric utility business environment. The OPPD resource planning process will provide the resources and analytical capability to adequately assess OPPD’s Integrated Resource Portfolio (or Supply and Demand Portfolio) to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customers.

To attain this goal, OPPD shall:

• Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

• Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

• Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.
The Board of Directors recognizes that the District will have to adapt to the rapidly changing electric utility business environment. The OPPD resource planning process will provide the resources and analytical capability to adequately assess OPPD’s Integrated Resource Portfolio (or Supply and Demand Portfolio) to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customers.

To attain this goal, OPPD shall:

• Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

• Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

• Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.
The Board of Directors recognizes that the District will have to adapt to the rapidly changing electric utility business environment. The OPPD resource planning process will provide the resources and analytical capability to adequately assess OPPD’s Integrated Resource Portfolio (or Supply and Demand Portfolio) to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customers.

• Resource Planning Process
  – OPPD maintains a dedicated staff who facilitate both long term and short term “Resource Planning”.
    • Short Term – Used to derive near-term (usually 5 years) worth of expected load, fuel budgets, generation volumes, off system sales as well as fuel and purchase power. Rarely, if ever, are long term resource decisions made during this short term planning as the outputs are used primarily for the annual Corporate Operating Plan
    • Long Term – Used to derive the same outputs as the Short Term version but on a much longer duration and usually involve longer term resource recommendations.
  – OPPD uses sophisticated and robust platforms while resource planning including AURORA for resource planning and Itron for load forecasting.
  – OPPD’s process incorporates robust supply and demand side resource evaluations which balance competitive, cost-effective and environmentally sensitive service.
The Board of Directors recognizes that the District will have to adapt to the rapidly changing electric utility business environment. The OPPD resource planning process will provide the resources and analytical capability to adequately assess OPPD’s Integrated Resource Portfolio (or Supply and Demand Portfolio) to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customers.

To attain this goal, OPPD shall:

- Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

- Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

- Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.
Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

- Short Term resource planning is completed annually.
- Long term resource planning can be triggered by a variety of diverse circumstances, including but not limited to:
  - Meaningful changes to Southwest Power Pool accreditation policy
  - System reserve margin changes
  - Alterations of current environmental regulations
  - Proposed new environmental regulations
  - Bulk Electric System reliability/resiliency changes
  - Western Area Power Administration filings
  - Significant load changes
  - Combination of some or all of the above
Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

• Power with Purpose Highlights
  – First-time evolution for the simultaneous optimization of transmission and generation planning while balancing the tradeoffs for the reliable, competitive, cost effective, and environmentally sensitive.
  – Included the development of an innovative efficient-frontier framework to simultaneously optimize the multiple objectives of OPPD’s mission: affordable, reliable, and environmentally sensitive.
  – Process resulted in 70 million potential resource combinations.
  – Robust supply and demand side options were present.
  – Effort is critical to realize an anticipated 80-90% reduction over current North Omaha emissions.
  – Outcome is expected to posture OPPD to embrace decarbonization in the coming years.
Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

- *Analysis objective to balance affordability, reliability and resiliency and environmental sensitivity.*
- OPPD’s analysis considered many supply, demand, and transmission resources.
- Technologies in grey were screened out due to significant cost premiums, comparative ineffectiveness, or failing to meet technical or resiliency requirements.

*Demand Side Management example programs were considered in a detailed analysis and will reduce OPPD’s resource requirements to the extent that they are achieved and realized.*
Periodically assess, for strategic and integrated resource plans, OPPD's mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

**Modeling Approach***

The universe of options is created by all combinations of technologies, sites, and sizes.

The logical constraints eliminate physically infeasible options – such as a North Omaha 1-3 being both retired and operating on natural gas simultaneously.

Site constraints limit the total amount of resources at any one location to enhance resiliency and leverage existing transmission infrastructure.

Generation capacity constraints ensure that there are sufficient resources to meet customer demands throughout the year.

The Efficient Frontier identifies combinations of resources that best achieve OPPD’s competing objectives of Affordable, Reliable/Resilient, and Environmentally Sensitive and will be confirmed post RFP.

*Modeling approached utilized Aurora, PSSE and supplemental tools.
SD-9 Resource Planning

Strategic Directive

The Board of Directors recognizes that the District will have to adapt to the rapidly changing electric utility business environment. The OPPD resource planning process will provide the resources and analytical capability to adequately assess OPPD’s Integrated Resource Portfolio (or Supply and Demand Portfolio) to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customers.

To attain this goal, OPPD shall:

• Periodically assess, for strategic and integrated resource plans, OPPD’s mix of generation assets, demand-side management programs, purchased power agreements and renewable energy resources.

• Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

• Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.
Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

- As appropriate, OPPD’s processes use a range of risk analysis techniques including stochastic and scenario analysis, varying inputs across ranges of potential outcomes.

- These simulations can tell us how potential portfolios will fare in unknown future states including the impacts to both expected generation volumes and emissions, overall cost, and financial risk.

• Utilize multiple scenarios to properly evaluate the range of risks posed by varying future assumptions such as, but not limited to fuel costs, economic growth, regulations and emerging technologies.

• Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.
Ensure all integrated resource strategic plans support and align with OPPD’s Strategic Directives.

The planning process considers the diverse and unique requirements of the following Strategic Directives and embraces the competing interests and tradeoffs that must be made when making resource decisions:

- SD-2: Rates
- SD-4: Reliability
- SD-5: Customer Satisfaction
- SD-7: Environmental Stewardship
- SD-9: Resource Planning
- SD-11: Economic Development
- SD-13: Stakeholder Outreach and Engagement
- SD-15: Enterprise Risk Management
Recommendation

• The System Management Committee has reviewed and accepted this Monitoring Report for SD-9 and recommends that the Board find OPPD to be sufficiently in compliance with Board Policy SD-9.
WHEREAS, the Board of Directors has determined it is in the best interest of the District, its employees, and its customer-owners to establish written policies that describe and document OPPD’s corporate governance principles and procedures; and

WHEREAS, each policy was evaluated and assigned to the appropriate Board Committee for oversight of the monitoring process; and

WHEREAS, the Board’s System Management and Nuclear Oversight Committee (the “Committee”) is responsible for evaluating Board Policy SD-9: Resource Planning on an annual basis. The Committee has reviewed the SD-9: Resource Planning Monitoring Report and finds OPPD to be sufficiently in compliance with the policy as stated.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of Omaha Public Power District accepts the SD-9: Resource Planning Monitoring Report, in the form as set forth on Exhibit A attached hereto and made a part hereof, and finds OPPD to be sufficiently in compliance with the policy as stated.
BOARD OF DIRECTORS

August 11, 2020

ITEM

Award 345-161-13.8kV 300/400/500 (560) MVA OLTC Autotransformer Contract

PURPOSE

Board of Directors authorization to reject the proposals received for RFP No. 5735, and for the District to enter into a negotiated contract for the purchase of one (1) 345-161-13.8kV 300/400/500 (560) MVA OLTC Autotransformer and to enter into a contract for an initial term of one (1) year with the option to renew for up to four (4) additional one (1) year terms.

FACTS

a. Four (4) proposals were received; four (4) are legally responsive, two (2) are technically non-responsive, and two (2) were not evaluated technically due to proposals being above fair market value.

b. Initial purchase of one (1) transformer will be ordered upon successful contract award to support an active autotransformer replacement.

c. Renewable contract provision includes an escalation/de-escalation formula based on identified indices.

d. Transformers purchased through renewals of the contract would be based on need and be used to support future spares, future load growth, or replacement projects.

ACTION

Authorization by the Board to reject all proposals received for RFP No. 5735 “345-161-13.8kV 300/400/500 (560) MVA OLTC Autotransformer” and allow District Management to enter into a negotiated contract.

RFP No. 5735
“345-161-13.8kV 300/400/500 (560) MVA OLTC AUTOTRANSFORMER”
Analysis of Proposals

1.00 GENERAL

RFP No. 5735 was advertised for bid on May 12, 2020.

RFP No. 5735 provides the opportunity to purchase 345-161-13.8kV autotransformers for initial term of one (1) year with the option to renew up to four (4) additional one (1) year terms pursuant to the escalation/de-escalation provisions. OPPD will initially procure a quantity of one (1) 345-161-13.8kV autotransformer to support current replacement needs with desired delivery in September 2021.

One Letter of Clarification and zero addendums were issued. Letter of Clarification addressed questions around payment terms, tap changer type, full loss capacity evaluation, and variable flux voltage variation design.

Bids were requested and opened at 2:00 p.m., C.D.T., Wednesday, June 10, 2020.

Four (4) total proposals were received. The proposals received are summarized in the table below:

¹Technical evaluation suspended due to economic evaluation exceeding fair market value

2.00 COMPLIANCE WITH CONTRACT TERMS AND GENERAL REQUIREMENTS

OPPD’s legal counsel noted Pennsylvania Transformer Technology, Inc. (PTTI) took exception to the Contract Documents terms offered in the RFP materials and submitted pre-printed contract terms and conditions, which PTTI states are to be considered binding for this contract. Guaranteed completion date was provided as 48-52 weeks upon receipt of order. The proposal was noted as legally responsive with the understanding that clarification be obtained that OPPD’s contract documents shall govern.
Hyundai Electric America Corporation (Hyundai)’s proposal included exceptions to OPPD’s limit of liability. The exceptions are subject to OPPD’s economic and risk evaluation.

ABB Enterprise Software, Inc. proposal included exceptions to OPPD’s cancellation schedule and limit of liability to the contract price. Legal did not deem these exceptions to be material; however subject to OPPD’s economic and risk evaluation.

SPX Transformer Solutions, Inc. proposal included exceptions to OPPD’s limit of liability to the contract price, provided a guaranteed completion date based on 52 weeks after receipt of order and provided a bid price which may be subject to revision based on changes in commodity prices. Legal did not deem these exceptions to be material; however subject to OPPD’s economic and risk evaluation.

Subject to the foregoing recommendations and OPPD’s technical and economic evaluation and clarification of noted items, all of the proposals received may be considered by OPPD’s Board of Directors for the award of this contract. The bond of the successful bidder also must be approved by the Board.

3.00 COMPLIANCE WITH TECHNICAL REQUIREMENTS

The proposal received from Pennsylvania Transformer Technology, Inc. was non-compliant with the technical specifications and determined to be technically non-responsive.

The proposals received from Hyundai Electric America Corporation was technically complete but delivery date of December 30, 2021 did not meet desired delivery date of September 1, 2021 hence deemed technically non-responsive.

The proposals received from ABB Enterprise Software, Inc., and SPX Transformer Solutions, Inc. were not evaluated technically based on economic evaluation exceeding fair market value.

4.00 RECOMMENDATION

On the basis of compliance with legal and technical requirements and economic evaluations performed, it is recommended that all proposals received for RFP No. 5735 “345-161-13.8kV 300/400/500 (560) MVA OLTC TRANSFORMER”, be rejected by the Board of Directors and that Management be authorized to enter into a negotiated contract for this project.

RE:  Request for Proposal No. 5735 - 345-161kV Autotransformer  

Ladies and Gentlemen:  

We have reviewed the four (4) proposals received in response to the District's RFP No. 5735 and provide the following legal opinion.  

The proposal of Pennsylvania Transformer Technology, Inc. specifies a guaranteed completion date of "48-52 weeks after receipt of order." Therefore, in order to determine the guaranteed completion date for evaluation purposes, OPPD will have to use the date that is 52 weeks after the expected issuance of the contract as the guaranteed completion date. The Pennsylvania Transformer proposal also submits pre-printed contract terms and conditions, which Pennsylvania Transformer states are to be considered binding for this contract. That is not consistent with the District's contract documents. The terms proposed by Pennsylvania Transformer include a limit of liability of the total contract price, cancellation charges, and a revised warranty provision, as well as the specification of Pennsylvania law as the governing law for the contract. If the Pennsylvania Transformer proposal is to receive further consideration for the award of this contract, the District must obtain a letter of clarification from Pennsylvania Transformer stating that in the event of conflict between the District's contract documents and the pre-printed terms proposed by Pennsylvania Transformer, the District's contract documents shall govern. If Pennsylvania Transformer does not provide such a letter, then we deem the proposal to be materially non-responsive to the contract documents, and it shall receive no further consideration for the award of the contract.  

The proposal of Hyundai submits limited exceptions to the District's contract documents. The exceptions include a limit of liability to the contract price. The exceptions are subject to the District's economic and risk evaluation.  

The proposal of ABB Enterprise Software, Inc. submits exceptions to the contract documents that includes a cancellation schedule in the event of OPPD's termination for convenience, and a limit of
liability to the contract price. We do not deem the exceptions to be material; however, they are subject to the District's economic and risk evaluation.

Finally, SPX Transformer Solutions proposes that the bid price may be subject to revision based on changes in commodity prices. SPX Transformer Solutions submits indices that would be used to calculate any change in the price. The SPX Transformer proposal also specifies a guaranteed completion date 52 weeks after receipt of an order. The District will have to calculate the actual guaranteed completion date based on that submission. Finally, the SPX Transformer proposal includes limited exceptions to the contract documents, including a proposed limit of liability of 1.5 times the contract price. Those exceptions are not, in our opinion, materially non-responsive and may be considered in the District's economic and risk evaluation. The SPX Transformer proposal submits technical exceptions that are subject to the District's evaluation.

Subject to the foregoing comments and recommendations, and the District's technical and economic evaluation, all of the proposals received in response to the District's RFP No. 5735 may be considered by the District's Board of Directors for the award of this contract. If a bond is required for this project, it too must receive approval of the Board.

Very truly yours,

Stephen M. Bruckner
FOR THE FIRM

SMB/sac
2377422
WHEREAS, sealed bids were requested and advertised, as required by law, for the following:

REQUEST FOR PROPOSAL (RFP) NO. 5735
345-161-13.8KV 300/400/500 (560) MVA OLTC AUTOTRANSFORMER

WHEREAS, bids were received and opened at the time and place mentioned in the published notices and the Director – Supply Chain Management supervised the tabulations, which have been submitted to this Board;

WHEREAS, the Board of Directors has carefully considered the bids submitted, as well as the recommendations of the District’s Management and General Counsel;

WHEREAS, Section 70-637 of the Nebraska Revised Statutes authorizes the District’s Board of Directors to reject proposals if they are not responsive to the Request for Proposals or exceed the fair market value for the proposed scope of work, and to authorize Management to pursue a negotiated contract; and

WHEREAS, the Board of Directors concurs with Management’s recommendation that two of the proposals for RFP No. 5735 are technically non-responsive and the other two proposals exceed the fair market value for the proposed scope of work.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Omaha Public Power District that all proposals received in response to Request for Proposal No. 5735 are rejected and Management is authorized to negotiate and enter into a contract for this project, subject to review and approval of the final contract by the District’s General Counsel.
Board Action

BOARD OF DIRECTORS

August 11, 2020

ITEM

Award Fall 2020 Transmission Construction

PURPOSE

Board of Directors authorization to award a contract for construction services for multiple Transmission Projects: Install ten (10) miles of fiber optic ground wire on four (4) existing transmission lines to support the Fiber Network Expansion (FNE) project; a 1.4 mile relocation of a 69kV line for a NDOT road project; and seventeen (17) 345kV condition-based structure replacements identified through field inspections.

FACTS

a. FNE is a four-year project to upgrade communications circuits now leased from local telecommunications providers who plan to discontinue support of these aging facilities. The facilities are used to ensure reliability and the ability to monitor and control energy delivery equipment.

b. A 1.4 mile section of a 69kV line needs to be relocated to support an NDOT road project.

c. Replacement of seventeen (17) 345kV Structures.

d. Construction labor including the following:
   1. Removal of existing ground wire and existing hardware.
   2. Installation of fiber optic ground wire and hardware.
   3. Structure removal and replacement (including foundation work).
   4. Wire stringing.

e. Six (6) proposals were received. All six (6) proposals are legally and technically responsive.

f. Construction will begin September 2020 and conclude February 2021.

g. The bid from Higher Power Electrical, LLC was evaluated to be the lowest and best bid.

ACTION

Authorization by the Board to award a labor contract to Higher Power Electrical, LLC for the evaluated amount of Two Million, Two Hundred Four Thousand, Three Hundred Fifty-Seven Dollars ($2,204,357.00) based on the evaluation of RFP No. 5759 – “Fall 2020 Transmission Construction” for the procurement of construction services to add fiber optic ground wire to existing transmission lines, relocate a section of a transmission line, and structure replacements.

RFP No. 5759
“Fall 2020 Transmission Construction”
Analysis of Proposals

1.00 GENERAL

RFP No. 5759 was advertised for bid on June 16, 2020.

This contract will procure construction services for multiple Transmission Projects. Projects include the install of ten (10) miles of fiber optic ground wire on four (4) existing transmission lines to support the Fiber Network Expansion (FNE) project, a 1.4 mile relocation of a 69kV line for a NDOT road project, and seventeen (17) 345kV condition-based structure replacements identified through field inspections.

Construction is scheduled to begin September 2020 and conclude February 2021.

One (1) Letter of Clarification (LOC) was issued. LOC No. 1 provided geotechnical information on the road project in response to a question that was received.

Bids were requested and opened at 2:00 p.m., C.D.T., Wednesday, July 15, 2020.

Six (6) total proposals were received. The proposals received are summarized in the table below:

2.00 COMPLIANCE WITH CONTRACT TERMS AND GENERAL REQUIREMENTS

The District’s legal counsel noted the proposal response from L.E. Myers Co. included technical clarifications, however the proposal was deemed legally responsive.

The remaining proposals were deemed to be legally responsive.

3.00 COMPLIANCE WITH TECHNICAL REQUIREMENTS

All proposals were deemed to be technically responsive.

4.00 RECOMMENDATION

On the basis of compliance with the legal and technical requirements of the specifications, cost evaluations performed and guaranteed completion dates, it is recommended that RFP No. 5759, “Fall 2020 Transmission Construction” be awarded to Higher Power Electrical, LLC for the evaluated amount of Two Million, Two Hundred Four Thousand, Three Hundred Fifty-Seven Dollars ($2,204,357.00).

RE: Request for Proposal No. 5759 – 2020 Fall Transmission Construction ("RFP No. 5759")

Ladies and Gentlemen:

We have reviewed the six (6) proposals received in response to RFP No. 5759 and offer the following legal opinion. All of the proposals contain the information requested in this RFP. There are no exceptions in any of the proposals to the terms in the contract documents, other than technical clarifications by bidder L.E. Myers Co.

Subject to the District's economic and technical evaluation, all of the proposals received in response to RFP No. 5759 may be considered by the District's Board of Directors for the award of this contract. The form of payment and performance bond for this contract also must be approved by the Board.

Very truly yours,

[Signature]

Stephen M. Bruckner
FOR THE FIRM

SMB:bjs
2397403.01
WHEREAS, sealed bids were requested and advertised, as required by law, for the following:

REQUEST FOR PROPOSAL NO. 5759
FALL 2020 TRANSMISSION CONSTRUCTION

WHEREAS, bids were received and opened at the time and place mentioned in the published notices and the Director – Supply Chain Management supervised the tabulations, which have been submitted to this Board; and

WHEREAS, the Board of Directors has carefully considered the bids submitted, as well as the recommendations of the District’s Management and General Counsel.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Omaha Public Power District that Management hereby is authorized and directed to accept the proposal of Higher Power Electrical, LLC for the procurement of construction services for multiple transmission projects, as set forth in Request for Proposal No. 5759, in the amount of $2,204,357.00, and the bond of such bidder hereby is approved.
REPORTING ITEM

BOARD OF DIRECTORS

ITEM

Nuclear Oversight Committee Report

PURPOSE

The Nuclear Oversight Committee provides a regular oversight of items related to the Fort Calhoun Station (FCS) nuclear plant.

FACTS

In addition to safe and secure dry cask storage of fuel, the required Preventative Maintenance tasks and Surveillance Tests, the following major decommissioning activities were completed in July:

- The station’s diesel generators, previously used for backup power, were sold and removed from site. In order to remove these units intact, several alterations to the plant were required, including removal of walls surrounding the units. This complex effort required collaboration with several different OPPD departments and various specialty companies. The units are now available for use by the generation industry.

- The critical path for the deconstruction project following fuel moves is the segmentation of the reactor vessel internal components. A specialty contractor, with oversight from the station, will conduct the engineering, design, planning and execution of this task. The on-site effort, led by the station, is currently focused on ensuring the site modifications are completed before beginning the physical segmentation work. An example of the on-site effort is the removal of equipment necessary to make the space needed to conduct the segmentation activities.

- In parallel with the reactor vessel related activities, the site is actively working to make the final transition to ready systems and structures for deconstruction. This involves removing all electricity or other potential energy sources and hazards from the structure. The goal is to begin demolition of selected structures in early 2021.

Pre-Committee Agenda

PUBLIC INFORMATION PRE-COMMITTEE MEETING
WEBEX VIDEOCONFERENCE
Tuesday, August 4, 2020  4:00 – 5:30 P.M.

1. BL-9: Delegation to President & CEO – Local, State and Federal Legislation (20 mins)
   a. Objective:  Continue review of proposed draft of legislative board resolution

2. Legislative and Regulatory Update (20 mins)
   a. Objective:  Provide brief update on federal and state legislative and regulatory activities

3. Customer Trends Update (30 mins)
   a. Objective:  Provide brief update on customers experiencing financial challenges

4. Customer Engagement (15 mins)
   a. Objective:  Provide brief update on customer engagement efforts
Legislative Resolution Draft 08-04-20

WHEREAS, OPPD’s vision is to lead the way we power the future.

WHEREAS, OPPD’s mission is to provide affordable, reliable, and environmentally sensitive energy services to our customers.

WHEREAS, OPPD’s values are: We have a PASSION to serve – We HONOR our community – We CARE about each other.

WHEREAS, OPPD Board uses Strategic Directives (SDs) and Board Linkages (BLs) to set direction and guide management’s actions.

NOW, THEREFORE, BE IT RESOLVED with reference to the 2020 session of the Nebraska Legislature and the 116th U.S. Congress and related regulatory actions, that:

- OPPD opposes legislation that would jeopardize the public power business model, which provides locally-governed, customer-centric energy solutions throughout the country.

- OPPD supports enactment of legislation to reinstate advance-refunding bonds, simplify municipal bond private-use rules, and supports the continuation of the federal tax exclusion for municipal bond interest.

- OPPD supports federal and state incentives for renewable energy development, energy efficiency, and storage technologies, such as sales tax credits, tax exemptions, investment tax credits, and production tax credits.

- OPPD opposes fees/taxes imposed on the District that may directly or indirectly increase costs.

- OPPD believes it is our responsibility to protect our environment while providing an essential service to power our communities. OPPD supports the most economically efficient means for reducing Greenhouse Gas (GHG) emissions from an economy-wide perspective while protecting system reliability, rather than requiring the use of any particular kind of generation.

- OPPD supports net metering legislation for customer owned renewable energy generation that is installed safely for customer and utility workers. Any legislation should equitably compensate the customer and utility.

- OPPD supports legislation to incentivize market adoption of electric vehicles and charging stations.

- OPPD supports the availability of funding to provide energy and housing security to assist our customers with financial challenges.

- OPPD supports a strong federal role in research and development to expand available generation technology options, support advanced grid capabilities, and enhance end-user services.
• OPPD supports enhanced infrastructure and employee security, both physical and cyber, in cooperation with federal, state, and local resources based upon prudent and cost-effective measures. OPPD opposes legislation adding new costs and burdens for cyber and physical security related issues that are not commensurate with the risks and benefits.

• OPPD supports existing eminent domain authority and opposes modifications that weaken the condemnation authority of public power utilities.

• OPPD supports the goal of expanding access to broadband internet service for all Nebraskans.

• OPPD opposes legislation that would limit our ability to provide energy-related services and solutions.

• OPPD opposes proposals to divest of membership in Regional Transmission Organizations (RTO), divest transmission assets of Western Area Power Administration (WAPA) and change the Power Marketing Administrations’ cost-based rate structure to a market-based rate structure.

• OPPD opposes any effort by Congress or the Administration to weaken or repeal the exemption for public power utilities from federal pole attachment regulations.

• OPPD opposes land use policies that put an undue burden on siting all forms of energy generation and infrastructure.

• OPPD supports studying ways to reduce flood risk of the Missouri River; actively participating in discussions regarding the entrainment and impingement studies that were performed on the Missouri River to determine Best Technology Available (BTA) for the protection of fish; and actively participating in all U.S. Army Corps of Engineers, Nebraska Department of Natural Resources, and other proposals imposing constraints on entities who are users of Missouri River water.

• OPPD supports policies that champion the construction of a consolidated interim nuclear waste storage facility in a willing host community, but does not impede our DOE queue position. In addition, OPPD asserts that the Department of Energy (DOE) must follow its statutory obligations and construct a final repository for nuclear waste, whether at Yucca Mountain, or another location.

Congress’s response to the coronavirus crisis and potential next steps

**Phase 1**

Initial support and vaccine development

- H.R. 6074 — Coronavirus Preparedness and Response Supplemental Appropriations Act
  - $8.3 billion in COVID-19 response funding for developing a vaccine and preventing further spread of the virus
  - Became law on 3/6/20

**Phase 2**

Paid leave, unemployment and food assistance

- H.R. 6201 — Families First Coronavirus Response Act
  - $100 billion in worker assistance, including emergency paid sick leave, food assistance, and unemployment payments
  - Became law on 3/18/20

**Phase 3**

Major economic stimulus package

- H.R. 748 CARES Act
  - Major stimulus package ($2 trillion)
  - Loans and support to major industries, including airlines and small businesses
  - Direct payments to individuals and families
  - Became law on 3/27/20

**Phase 3b**

Additional funding for small businesses/hospitals

- S.Amdt.1580 Paycheck Protection Program and Health Care Enhancement Act
  - $310 billion for the depleted Paycheck Protection Program, additional funding for hospitals and testing
  - Became law on 4/24/20

**Phase 3c**

Paycheck Protection Program (PPP) extension

- S. 4116 — A bill to extend the authority for commitments for the paycheck protection program...
  - Extended PPP for five weeks, until August 8th
  - Became law on 7/4/2020

**Phase 4 - TBD**

Additional economic support

- Democratic leadership introduced a $3 trillion package in May with priorities for the next phase
- GOP leadership introduced a $1 trillion package that illustrated different priorities over state aid and unemployment provisions

CARES Act

• Nebraska - $1.084 billion
• Douglas County - $166 million
• OPPD issues
  – Reimbursement for COVID-19 expenses (State, Douglas County, FEMA)
  – Funding to Dollar Energy Fund to help customers pay bills
• Working with M.U.D.
  – Submitted joint letter to Douglas County for funding to Dollar Energy Fund
  – Douglas County set aside $4 million for utility assistance – still working on agreement
  – Dollar Energy Fund applied for and was awarded $1.5 million ($1 million for OPPD, $500,000 for M.U.D.) for other counties in our service territory

ITEM

Best Place to Work for YOU Survey Results

PURPOSE

Quantum Workplace to provide an overview of the 2020 Best Places to Work for You survey results.

FACTS

a. The employee response rate was 87.4%.

b. The overall engagement score for OPPD was 81.8 for 2020.

c. The survey data is being shared across all team levels. Action plans for improving employee engagement are due by September 30, 2020.

d. Board Policy SD-8 establishes a goal to achieve top-quartile performance for employee engagement for similar sized companies.

ACTION

Reporting item.

RECOMMENDED:                     APPROVED FOR REPORTING TO BOARD:

/s/ Martha L. Sedky                /s/ Timothy J. Burke
Martha L. Sedky                    Timothy J. Burke
Vice President – Human Capital     President and CEO

MLS:cl
Employee engagement is the strength of mental and emotional connection employees feel toward the work they do, their teams, and the overall organization.
Executive Summary

The Great News:

- Incredible response rate of 87.4% (78.9% last year)
- Overall favorable responses improved to 74% (69.6% last year)
- 56 out of 57 questions asked last year improved
- Comments expressed general good will and company appreciation for organization and job

How do we keep the momentum?

- Maintain the current levels of communication established by Covid response team
- Find ways to listen to and recognize those closest to the work being completed
- Focus on improving Diversity, Equity and Inclusion understanding across the district
How Favorability Scores are Calculated

- **Unfavorable**: Strongly Disagree (1), Disagree (2)
- **Neutral**: Somewhat Disagree (3), Somewhat Agree (4)
- **Favorable**: Agree (5), Strongly Agree (6)
Moving forward, we will be focusing on “Overall % Favorable” as the target metric, rather than Overall Score.

- % Favorable allows to more easily measure improvements and declines (e.g., if we see a 5% improvement, we know that we shifted perceptions for 5% of the population).
- Overall Score, while the main metric used in Best Places to Work events, does not easily allow us to determine how perceptions have changed over time.
Response Rate and Overall % Favorable: 2016 to 2020

Response Rate

Overall % Favorable

2016: 58.6%
2017: 58.5%
2018: 64.7%
2019: 69.6%
2020: 74.0%
More than half of all respondents are measuring as Highly Engaged in 2020 (+6.8% since 2019).

Favorability Continues to Increase:
All categories (and 56 of 57 trending items) saw an increase in favorability since the prior survey.

Category Results – 2019 to 2020

Results less than 70% favorable should be considered as areas of opportunity for improvement.
## Engagement Outcomes:
Perceptions of advocacy have increased significantly since 2019.

<table>
<thead>
<tr>
