2. Board Work Plan Discussion (10 min)
   a. Objective: Discuss potential System Committee topics for inclusion on Board Work Plan

3. Summary of Committee Direction (2 min)
   a. Objective: Senior management team liaison(s) to summarize direction provided by the committee
ITEM
Re-tube Nebraska City Unit 1 Condenser Waterboxes B, C, and D

PURPOSE
Provide the labor to re-tube the B, C, and D waterboxes of the Nebraska City Unit 1 condenser.

FACTS
a. The Nebraska City Unit 1 condenser waterboxes B, C, and D tubes have been evaluated and should be replaced to maintain unit reliability.

b. The District requested bids for the labor to re-tube the condenser waterboxes. Two bids were received. Both bids were determined to be legally responsive and technically acceptable.

c. The re-tubing of the condenser waterboxes will be completed with OPPD supplied tubes procured under a previously awarded material contract. The tubing installation will be performed in the spring of 2021 during a scheduled maintenance outage.

d. TEi Construction Services, Inc. provided the lowest and best evaluated bid.

ACTION
Authorization by the Board of Directors to award a contract to TEi Construction Services, Inc. for the labor to re-tube the Nebraska City Unit 1 condenser waterboxes B, C, and D.

RECOMMENDED:

Mary J. Fisher
Vice President – Energy Production and Nuclear Decommissioning

MEMORANDUM

DATE: November 3, 2020

FROM: S.A. Eidem

TO: M. J. Fisher

SUBJECT: Nebraska City Unit 1 Condenser Waterbox B, C, and D Re-tube Installation Request for Proposal No. 5785 EC 70287

1.00 GENERAL

Request for Proposal (RFP) No. 5785 is for the labor, equipment, rigging, and scaffolding to re-tube the Nebraska City Unit 1 (NC1) waterboxes B, C, and D located in the two main condensers. This contract covers installation work but does not include the fabrication and supply of condenser tubes. The tube material contract was awarded to Plymouth Tube on July 20, 2020 for $1,357,429.06. There is a scheduled unit outage in the spring of 2021 to re-tube the NC1 condenser waterboxes.

The condenser tubes in waterboxes B, C, and D are original equipment with commercial operation commencing in 1979. The condenser tubes in these waterboxes have been evaluated and are seeing an upward trend in tube wall thinning which result in tube plugging. The waterbox A was re-tubed in 2016. Waterboxes B, C and D should be re-tubed to maintain unit reliability.

RFP 5785 was advertised on August 11, 2020. One (1) addendum and two (2) letters of clarification were issued. Bids were received and opened on October 6, 2020. Two (2) companies submitted bids as follows:

<table>
<thead>
<tr>
<th>BIDDER</th>
<th>LUMP SUM FIRM PRICE</th>
</tr>
</thead>
<tbody>
<tr>
<td>TEi Construction Services, Inc.</td>
<td>$1,957,998.00</td>
</tr>
<tr>
<td>American Efficiency Services, LLC</td>
<td>$2,457,753.13</td>
</tr>
</tbody>
</table>

The Engineer's Estimate at the time of the bid opening was $2,050,000.

2.00 COMPLIANCE WITH CONTRACT TERMS AND CONDITIONS

The proposals were reviewed by the District's legal counsel and both are considered to be legally acceptable and can be considered by the Board of Directors for award. TEi Construction Services, Inc. clarified scaffolding and tube off-loading manpower requirements are supplied by them after bid opening. Also, TEi Construction Services, Inc. clarified the bid is good for 90 days allowing further consideration for award per OPPD Board meeting schedule.

Both proposals included commercial clarifications and exceptions to the contract documents. TEi Construction Services proposed changes in accordance with a 2019 Master Services Agreement
already executed with OPPD. OPPD’s review of the Master Services Agreement and comparison to the original contract documents found it to be appropriate for this scope of work and of minimal effect on the economic evaluation of the proposals.

3.00 COMPLIANCE WITH TECHNICAL REQUIREMENTS

Both proposals were reviewed and determined to be technically acceptable.

4.00 RECOMMENDATION

Based on compliance with legal and technical requirements of this specification, it is recommended that Request for Proposal No. 5785 be awarded to TEi Construction Services, Inc. for $1,957,998.00.

October 8, 2020

Omaha Public Power District
444 South 16th Street
Omaha, NE  68102

RE: Request for Proposal No. 5785 – Nebraska City Unit 1 Condenser Waterbox B, C and D Re-tube Installation ("RFP No. 5785")

Ladies and Gentlemen:

We have reviewed the two (2) proposals received in response to RFP No. 5785 and provide the following legal opinion.

The proposal of TEi Construction Services, Inc. states that the proposal is only valid for 30 days. If the TEi proposal is to receive further consideration, TEi must provide a letter of clarification stating that its proposal remains open for the requisite time needed by the District's Board to consider the contract, as stated in the RFP documents. The TEi proposal also states that the requested services will be performed under an existing master services agreement executed between OPPD and TEi on February 27, 2019. If the District considers the existing master services agreement to be appropriate for this scope of work, then the District may utilize that contract for this work, rather than the contract that was included in the RFP package. If the District does not consider the existing master services agreement appropriate for this scope of work, then this proposal should not be given further consideration because it would be legally nonresponsive to the contract documents. The TEi proposal also includes conditions for the proposed schedule and a revised payment schedule for consideration by the District. The proposal also submits technical clarifications that require evaluation by the District.

The proposal of American Efficiency Services, Inc. has alternate pricing options and an alternate payment schedule that are subject to the District's evaluation. The American Efficiency Services proposal also includes commercial clarifications and exceptions to the contract documents, including on the liquidated damages, warranty, and indemnity provisions. The proposal also submits a proposed limitation of financial liability for the work under this contract. In our opinion, these commercial exceptions do not render the American Efficiency Services proposal legally nonresponsive. However, the exceptions are subject to the District's economic evaluation.

Subject to the foregoing comments and the District's technical and economic evaluation, both proposals received in response to the District's RFP No. 5785 may be considered by the Board of
Directors for the award of this contract. The form of performance and payment bond or letter of credit for the successful bidder also must be approved by the Board.

Very truly yours,

[Signature]

WHEREAS, sealed bids were requested and advertised, as required by law, for the following:

REQUEST FOR PROPOSAL (RFP) NO. 5785  
NEBRASKA CITY STATION UNIT 1 MAIN CONDENSER WATERBOX B, C AND D RE-TUBE INSTALLATION

WHEREAS, bids were received and opened at the time and place mentioned in the published notices and the Director – Supply Chain Management supervised the tabulations, which have been submitted to this Board; and

WHEREAS, the Board of Directors has carefully considered the bids submitted, as well as the recommendations of the District’s Management and General Counsel.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Omaha Public Power District that Management hereby is authorized and directed to accept the proposal of TEi Construction Services, Inc. in the amount of $1,957,998.00, to provide labor for the replacement of tubes for the Nebraska City Station Unit 1 main condenser, and the bond of such bidder hereby is approved.

ITEM

Sarpy County Station Unit 4B Power Turbine Repairs

PURPOSE

Provide services to repair Sarpy County Station Unit 4B power turbine.

FACTS

a. Sarpy County Station Unit 4B was inspected in October, 2020 and found to have power turbine damage that must be repaired before the unit may be returned to service.

b. The needed refurbishment, design modification, and repair work is proprietary and only the original equipment manufacturer, Pratt & Whitney Power Systems, Inc., is known to have the tooling, parts and expertise to perform the necessary repairs.

c. The District’s engineer has certified the proprietary nature of the work and that Pratt & Whitney Power Systems, Inc. is the only available source of supply for this work.

ACTION

Approval of the Engineer’s Certificate and authorization for Management to negotiate and enter into a contract with Pratt & Whitney Power Systems, Inc. for repair of the Sarpy County Station Unit 4B power turbine.

RECOMMENDED:  APPROVED FOR BOARD CONSIDERATION:

Mary J. Fisher  Timothy J. Burke
Vice President – Energy Production and Nuclear Decommissioning  President and Chief Executive Officer

Resolution
MEMORANDUM

DATE: October 26, 2020
FROM: S.A. Eidem
TO: M.J. Fisher
SUBJECT: Sarpy County Station Unit 4 "B" Power Turbine Repairs

1.0 GENERAL

OPPD utilizes regular internal inspections of the combustion turbine fleet to detect damage that, if not addressed, could lead to catastrophic failure of the major components. Sarpy County Station Unit 4 (SC4) was removed from service on October 5th, 2020 to perform this internal inspection. The inspection revealed significant damage to the internal rotating and stationary components of the “B” power turbine, one of the two power turbines required to run SC4 at full rated load. The damage was caused by internal component(s) of the power turbine breaking free and moving through the unit during operation.

The “B” power turbine has been removed from service to prevent further damage or failure and will be sent to the original equipment manufacturer for disassembly, inspection, and evaluation of the repairs required. Until the “B” power turbine is repaired, the unit can only operate at half capacity, approximately 24 MW.

The availability of the full accredited capacity of SC4 is critical for the District to meet obligations within the Southwest Power Pool integrated market as well as local system reliability.

Under the current plan, the unit will be disassembled, inspected, and repaired to restore the “B” power turbine. In addition, the root cause for the damage to the unit will be further investigated and addressed.

Contracts for parts, field assistance, and specialized services are expected to exceed $500,000.

Compliance with the sealed bidding requirements of the Nebraska Statutes is impractical and not in the public’s best interest. PW Power Systems, the original equipment manufacturer, has proprietary information regarding repair of these components. They are the only vendor with the tooling and technical expertise to perform the necessary repairs. While the exact cost of repair will not be known until a complete disassembly and detailed inspection has been performed, the estimated total cost of the repairs is $1,600,000.
2.0 RECOMMENDATION

An Engineer’s Certificate of the above statements has been prepared. Approval of that Certification is recommended. We request the Board of Directors to approve the Engineer’s Certification and to authorize management to negotiate a sole source contract with PW Power Systems for the repair of the SC4 “B” power turbine.

Scott A. Eidem
S.A. Eidem, P.E.
Director, Engineering Services
Energy Production and Nuclear Decommissioning
ENGINEER’S CERTIFICATE

Sarpy County Station Unit 4 was taken out of service for routine inspections on October 5th, 2020. During that inspection, components of the “B” power turbine were discovered to be damaged. The power turbine has been removed from service and will be inspected by the original equipment manufacturer, Pratt & Whitney Power Systems, Inc. (Pratt & Whitney) to determine a repair scope. Once the evaluation is complete and necessary repairs are identified, the District will need to issue a contract to make these repairs. As long as the power turbine is out of service, Sarpy County Unit No. 4 will only be able to generate electricity at half capacity.

The undersigned professional engineer employed by the Omaha Public Power District certifies that Pratt & Whitney, the original equipment manufacturer, is the only available source of supply for the parts and services needed to repair the “B” power turbine, because the repair work involves proprietary information held by Pratt & Whitney. Additionally, only Pratt & Whitney has the tooling, parts, and technical expertise to perform the necessary repairs.

Pursuant to Section 70-637 of the Revised Statutes of Nebraska, the Board of Directors is requested to approve this Engineer’s Certificate and authorize Management to negotiate and enter into a contract to repair and/or replace the damaged power turbine parts for Sarpy County Station Unit 4 without compliance with the sealed bidding requirements of Sections 70-637 of the Revised Statutes of Nebraska.

I, Clinton J. Zavadil (registered Professional Engineer in the State of Nebraska), certify the above to be true and correct to the best of my knowledge and belief.

Omaha, NE 68102

RE: Engineer's Certificate for repair of Sarpy County Station Unit No. 4 "B" power turbine

Ladies and Gentlemen:

We have reviewed the Engineer's Certificate of Clinton J. Zavadil, P.E., a professional engineer employed by the District. Mr. Zavadil's Engineer's Certificate explains that the "B" power turbine of Sarpy County Station Unit No. 4 was inspected in October 2020 and found to have been damaged, and now requires repair.

Mr. Zavadil's Engineer's Certificate certifies that Pratt & Whitney Power Systems, Inc. ("Pratt & Whitney") is the original equipment manufacturer for the Unit No. 4 power turbine and is the only available source of supply for the parts and services needed to repair the turbine. He further certifies that Pratt & Whitney has proprietary information, tooling, parts, and technical expertise that make it the only available source for the performance of the necessary repairs.

Section 70-637(6) of the Nebraska Revised Statutes authorizes the District to purchase replacement parts or services for generating units from original equipment manufacturers without advertising for sealed bids, upon appropriate certification by an engineer for the District. In our opinion, Mr. Zavadil's Engineer's Certificate meets the requirements of Section 70-637(6) and may be approved by the Board of Directors.

Section 70-637(6) requires that a written statement containing the Engineer's Certificate and a description of the purchase from the original equipment manufacturer must be submitted to the District's Board of Directors for approval at the next scheduled meeting of the Board. After receipt of the Certificate, but not necessarily before the Board review, the District must publish notice of such purchase once a week for at least three (3) consecutive weeks in one or more newspapers of general circulation in the District and in any other periodicals that may have been selected by the Board.
October 26, 2020

The District may proceed to complete this sole source purchase subject to compliance with Section 70-637(6) as outlined above. We recommend review and approval of the contract with the manufacturer by the District's General Counsel.

Very truly yours,

[Signature]

Stephen M. Bruckner
FOR THE FIRM

SMB/sac
2447624
WHEREAS, the Sarpy County Station Unit 4B (SC4B) power turbine was inspected and found to be in need of repair to ensure a reliable and resilient supply of electricity for the District's customers; and

WHEREAS, the District's Engineer has certified that the original equipment manufacturer, Pratt & Whitney Power Systems, Inc. (Pratt & Whitney), is the only available source of supply for the parts and services needed to repair the “B” power turbine because the repair work involves proprietary information held by Pratt & Whitney and only Pratt & Whitney has the tooling, parts, and technical expertise to perform the necessary repairs; and

WHEREAS, pursuant to Nebraska Revised Statute Section 70-637 (as amended), and upon approval of the Engineer's Certification by the Board of Directors, the District may negotiate and enter into a contract or contracts related to such project without sealed bidding.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Omaha Public Power District that:

1. The Engineer's Certification that Pratt & Whitney Power Systems, Inc. is the only available source of supply for the parts and services needed to repair the “B” power turbine at Sarpy County Station Unit 4 is hereby approved.

2. Management is hereby authorized and directed to negotiate and enter into the necessary contract or contracts with Pratt & Whitney to supply parts and specialized services for the repair of the Sarpy County Station Unit 4B power turbine, subject to review and approval of the final contract(s) by the District's General Counsel.

3. The notice required by Nebraska Revised Statutes Section 70-637 shall be published in the Omaha World Herald, or other similar newspaper of general circulation.

BOARD OF DIRECTORS

November 10, 2020

ITEM

Nuclear Oversight Committee Report

PURPOSE

The Nuclear Oversight Committee provides a regular oversight of items related to the Fort Calhoun Station (FCS) nuclear plant.

FACTS

In addition to safe and secure dry cask storage of fuel, the required Preventative Maintenance tasks and Surveillance Tests, the following major decommissioning activities were completed in October:

- Critical path for the deconstruction project remains the segmentation of the reactor vessel internal (RVI) components. Many of the critical path activities are being performed off-site at this time, including the design and fabrication of specialty tools. Weekly meetings are held with the sub-contractor to validate performance and discuss challenges.

- Several buildings, including the warehouse, maintenance building and the chemistry and radiation protection building have been isolated from all energy sources. Demolition of these “cold and dark” buildings is expected to start in early 2021.

- The civil work required for installation of a rail spur and processing area continues. A total of 70,000 cubic yards of soil is expected to be moved and reused as part of this effort. The project is expected to be completed early in 2021, weather permitting.

Recommendation

• The Public Information Committee has reviewed and accepted this Monitoring Report for SD-11 and recommends that the Board find OPPD to be sufficiently in compliance with Board Policy SD-11.
WHEREAS, the Board of Directors has determined it is in the best interest of the District, its employees, and its customer-owners to establish written policies that describe and document OPPD's corporate governance principles and procedures; and

WHEREAS, each policy was evaluated and assigned to the appropriate Board Committee for oversight of the monitoring process; and

WHEREAS, the Board’s Public Information Committee (the “Committee”) is responsible for evaluating Board Policy SD-11: Economic Development on an annual basis. The Committee has reviewed the 2020 SD-11: Economic Development Monitoring Report and finds OPPD to be sufficiently in compliance with the policy as stated.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors accepts the 2020 SD-11: Economic Development Monitoring Report, in the form as set forth on Exhibit A attached hereto and made a part hereof, and finds OPPD to be sufficiently in compliance with the policy as stated.

Customer Trends Update

PURPOSE
To provide an update on customer trends during the COVID-19 pandemic

FACTS
1. In response to COVID-19 Directed Health Measures declared in March 2020, the Omaha Public Power District developed a Customer First Solutions Package, a variety of programs to assist customers during the COVID-19 pandemic.

2. The Board requested that management provide regular reports on the progress of customer programs and trends.

Juli A. Comstock Timothy J. Burke
Vice President – Customer Service President and CEO

JAC: rak
Customer Trends Update

Committee Meeting November 10, 2020
Monitoring and adjusting OPPD’s solutions as our customers’ needs are changing.

Continuance of Customer First Solutions

- Maintain flexible bill payment options to help customers financially (via contact center request)
- Waive collection & reconnect fees on first field visit
- Empower customer service representatives to waive up to 3 Late Payment Charges for a customer in a 12 month period
- Suspend assessing additional deposits due to field collection visits
- Increase public education and awareness on Energy Assistance and Energy Efficiency education

Energy Assistance

- Implemented CARES Act Utility Assistance through Dollar Energy Fund securing $3 million of energy assistance available to residential customers economically impacted by COVID-19

Remote Learning

- Collaborated with school districts opting for remote learning options to ensure learning is not disrupted due to disconnection of electric service

Promotional/Marketing Campaign

- Assistance campaigns(email/digital) for customers with outstanding balances
- Fund raising campaigns for Energy Assistance Program and Gift of Energy

ITEM

Claim Settlement Report

PURPOSE

Report settlement of a claim in excess of $50,000

FACTS

a. State Farm Insurance submitted a tort claim to the District in connection with fire at the home of Gene and Sally Lienemann located at 12704 S. 68th Ave. Papillion, NE. During post storm response, a burnt pole ground made contact with the primary jumper and service neutral resulting in an arc flash. This contact energized the customer’s gas line resulting in a fire to the residence. State Farm’s property damage claim exceeded $449,000.

b. Nebraska State Statute §84-713, requires a report to the Board of Directors for the settlement of any claim in excess of $50,000.

c. The District and State Farm have agreed to a settlement in the amount of $404,138.60 without any admission of liability by the District. The parties have entered into a written settlement of the claim.

Power with Purpose Report

PURPOSE

Provide updates on the Power with Purpose project for November 2020.

SOLAR FACTS

NATURAL GAS FACTS

1. Continued evaluation of natural gas supply options to support gas generation facilities.

2. Issued simple cycle Combustion Turbine Request for Proposal (RFP) to qualified suppliers.

3. Received proposals in response to the Reciprocating Internal Combustion Engine RFP issued September 16, 2020 and began evaluation.

4. Completed evidentiary hearing with the Nebraska Power Review Board and received preliminary approval for the natural gas projects.

5. Continued technical assessments of both project sites.

6. Continued City of Papillion planning process for the Sarpy County South site.

7. Conducted community stakeholder outreach discussions.

RECOMMENDED:

Mary J. Fisher
Vice President – Energy Production and Nuclear Decommissioning

APPROVED FOR REPORTING TO BOARD:

Timothy J. Burke
President and CEO

Information as of October 26, 2020
Agenda

• Solar Project Update
• Natural Gas Generation Project Update
• Community Stakeholder Outreach Update
Solar Project Update
Solar Project Update

• Narrowed focus to 7 projects in/near service territory

• Continue technical, commercial, and contract analysis of these projects

• Provide solar technology outreach and education to:
  – County leaders (Washington, Cass, Burt, Saunders, Nemaha)
  – OPPDCommunityConnect.com
  – OPPD employees and retirees

Photo: Fort Calhoun Community Solar drone footage
Natural Gas Generation Project
Natural Gas Generation Project Update

- Nebraska Power Review Board
  - Applications submitted September 16
  - 16 letters received from major customers and community/state organizations in support
  - Hearing held October 19; PRB gave verbal unanimous approval (4 to 0)

- Voluntarily submitted documentation to the City of Papillion planning department in support of their process for Sarpy County South site
  - Papillion Planning Commission gave 7 to 0 approval for submittal items
  - Papillion City Council Meeting agenda item on November 17

- Detailed site technical assessments in progress for both proposed locations (ALTA survey, geotechnical, noise measurements, environmental)

- Fuel supply vendor meetings in progress
Natural Gas Generation Major Equipment Sourcing Progress

- Single RFP for Reciprocating Internal Combustion Engines (RICE)
- Single RFP for Simple-Cycle Combustion Turbines (CT)
- 9 vendors executed a Non-Disclosure Agreement (NDA) and received the applicable Request for Proposals (RFP)
- RICE proposals under evaluation
- CT Vendors submitted 27 questions in writing, which have been answered in two Letters of Clarification (LOC) and one Addendum

*Information as of November 4, 2020

RICE Pre-bid Webex | September 23, 2020 ✔
RICE Proposal Due Date | October 21, 2020 ✔
RICE Negotiations Begin | Mid-Late November 2020
RICE Target Contract Award | December 2020

CT Schedule Item | Milestone (Past/Future)
---|---
CT RFP Issue Date | October 7, 2020 ✔
CT Pre-bid Webex | October 14, 2020 ✔
CT Proposal Due Date | November 16, 2020
CT Negotiations Begin | Mid December 2020
CT Target Contract Award | January 2021
Stakeholder Outreach
Outreach Approach

Phase I
Broad Community Listening & Education
District-wide State of Utility (moved online)

Phase II
Conversations and Updates with Potentially Impacted Areas as Modeling Continues

Phase III
Engagement with Directly Impacted (landowners) & Interested (community leaders)

Ongoing
Outreach and Communication to Close the Loop
Virtual Meetings
September 2020

- Online Community Meetings, Sept. 29 & 30
- Promoted broadly via multi-channel digital campaign, including social media and radio
- Included geo-targeted social media, as well as direct mail, postcards, emails to community leaders and outreach to HOAs
- **Papillion meeting**: 52 attendees, Q&A more technical in nature
- **Military meeting**: 79 attendees, Q&A themes around sound, aesthetics, wildlife, property values and safety
- Meeting recordings posted on OPPDCommunityConnect

Note: Also held virtual meeting for MUD leadership with recording to be shared with MUD employees
Walking Tours

October 2020

- Lesson learned from online meetings... customers had a hard time visualizing sites
- Invited residents whose homes bordered MUD property on the east (RambleRidge) - ensured safety
- Subject matter experts on-hand as we toured plant and substation locations
- Boom truck allowed for height visualization of tallest substation structures
- General feedback:
  - Most grateful for in-depth look and relief that the plant was located further from homes
  - Addressed concerns around viewshed, sound, traffic, property values and electromagnetic fields
Next Steps

November 2020 and beyond...

- RambleRidge annual HOA meeting (Nov. 9)
  - Subject matter experts on-hand for updates, Q&A

- Drone footage of MUD site to be added to OPPDCommunityConnect (to help with perspective)

- Direct mail to original recipients of online meetings
  - Provide specifics for those who did not attend meetings or walking tours

- Solar locations, announcement, education and outreach

- Papillion (Sarpy County South) Transmission, Routing, Siting and Public Involvement Process

- 2021 meetings around design and construction

Frequent updates at OPPDCommunityConnect.com
Continued Engagement

• OPPDCommunityConnect.com
• OPPDtheWire.com
• Outlet’s newsletter
  – Monthly updates right to your home (or email)
• OPPD social media channels
  – Facebook, Twitter, LinkedIn, NextDoor (coming soon!)
• Contact your OPPD board member or community leader/elected official
• Community meetings
  – OPPD organized events
  – Home Owner Association meetings
  – Speakers Bureau (per your request)
• OPPD Public Affairs & Customer Service Teams

Meetings will be promoted via OPPD digital channels, publications, emails to community leaders, and when needed, direct mail.
