SD-13: Stakeholder Outreach & Engagement

As a publicly owned utility, OPPD is committed to engaging its customers, the community and other stakeholders.* OPPD shall:

• Use an integrated, clear and transparent engagement process that:
  – Provides meaningful ways for customer-owners to participate and provide feedback.
  – Is representative of the interested/impacted customer-owner segments that OPPD serves.

• Share context with customer-owners around key decisions.

• Continuously evaluate and improve its outreach and engagement processes.
Our process

- Objectives and outcomes help determine level of engagement
- Success may look different from one phase or stakeholder to the next
- Did we engage meaningfully, in multiple ways?
- Did stakeholders understand how and why decisions were made?
- Were stakeholders satisfied with the process (even if they didn't like the decision)?
- Did we listen and make accommodations where we could throughout the process?
Integration comes from using both formal and informal approaches

Formal outreach and feedback
• Follow a process, including IAP2’s proven approach
• Engage stakeholders via 1:1 meetings, large gatherings, social media, communication plans
• Use relationships and communication to gather feedback and loop back

Informal outreach and trust building
• Honor our communities with intentional and customized outreach by area
• Make connections, build relationships, build trust
• Foster relationships through regular contact
• Listen and gauge sentiment
• Create connections and build advocacy
We use the International Association of Public Participation (IAP2) best practices to guide our formal outreach.
