The public power promise holds representative governance as one of its foundational principles. This link to our customer-owners – through our elected board of directors – is key to Omaha Public Power District’s operations.

OPPD is leaning forward into the future and all it offers for our customers. In pursuit of OPPD’s vision and mission, our governance structure will inform all of the decisions we make that will impact our operations and service for decades to come.

The utility industry continues to undergo swift transformation, impacted by changing technology, more frequent extreme weather events and evolving customer expectations, among other factors. OPPD remains fully committed to effective governance practices that will be especially critical during this time.

Since 2015, OPPD’s Corporate Governance Initiative has provided the board and OPPD executive leadership an opportunity to discuss the wishes of our customer-owners, and to confirm strategic performance targets, board governance principles, accountabilities and levels of empowerment through which the organization can achieve these desired results.

OPPD’s board policies consist of three categories, all of which are designed to help optimize decision-making across the utility as well as clarity around the following:

<table>
<thead>
<tr>
<th>Category</th>
<th>Focus</th>
</tr>
</thead>
<tbody>
<tr>
<td>Governance Process</td>
<td>Principles for how the Board will govern itself.</td>
</tr>
<tr>
<td>Board-Staff Linkage</td>
<td>Delegations from the Board to the CEO to carry out the work of OPPD.</td>
</tr>
<tr>
<td>Strategic Direction</td>
<td>Performance for which the Board will hold OPPD accountable on behalf of its customer-owners.</td>
</tr>
</tbody>
</table>

This system of policy governance has delivered positive results in the years since it was implemented, including the following:

- A smooth transition and onboarding of newly elected board members
- Trust and cohesion with clarity for management as they carry out the work related to strategic direction policies and initiatives
- Clarity of strategic direction to guide resource prioritization and decisions to serve our more than 350,000 customer-owners, especially in areas of reliability, rate management and innovation for the future.

As part of OPPD’s commitment to transparency, board policies are available to review online, and engaging with the public will remain a priority around any changes to such policies. This oversight provides an opportunity for the board and executive leadership to clarify policy, revise it when necessary and ultimately deliver desired results for OPPD’s customer-owners.

Glossary............................................................................................................................................... 55
The corporate powers of OPPD shall be vested in the Board of Directors and shall be exercised in such manner as to confer upon OPPD’s customer-owners the benefits of a successful and profitable operation and conduct of its business. The Board of Directors operates under the provisions of the Nebraska Revised Statutes Chapter 70, Article 6, also known as the “Enabling Act.” As stated in Section 70-619 of the Nebraska Revised Statutes and Section 1 of the OPPD Bylaws, the corporate powers of OPPD are vested in the Board of Directors.

The purpose of the Board of Directors is to:

- Identify and define the vision and mission of OPPD, and establish the strategic directives of OPPD, communicating them in the form of policy.

- Monitor and measure OPPD’s impacts as a result of the strategic direction policies.

- Make certain operational decisions as required by the Enabling Act or other statutes.

- Appoint, evaluate and, when necessary, discharge the President and Chief Executive Officer.
The Board shall govern with an emphasis on: (i) strategic, forward-looking vision and leadership versus administrative detail; (ii) clear distinctions between the Board and President and Chief Executive Officer roles; and (iii) collaborative decision-making that encourages diverse viewpoints.

Specifically:

- **The Board shall cultivate a sense of group responsibility.** The Board shall be responsible for excellence in governing. The Board shall use the experience, input, and expertise of its individual members to enhance the Board as a body.

- **The Board shall set policies.** The Board shall direct, evaluate and inspire the organization through the establishment of written policies reflecting the Board’s standards. The Board’s major policy focus will be on OPPD’s intended impacts outside the organization, not on the functions or methods used to achieve results.

- **The Board shall be responsible for continual Board development.** Development will include orientation of new Board Members, periodic external and internal training of existing Board members, and regular Board discussion regarding process improvement.

- **The Board shall regularly discuss and evaluate its performance.** Self-monitoring will include, but is not limited to, annual Board surveys, annual reports from each Committee Chair, and regular monitoring of the adherence to policies adopted by the Board.
The specific job duty of the OPPD Board of Directors is to ensure appropriate organizational performance.

Specifically, the Board shall:

- Serve as representatives of OPPD’s customer-owners and build relationships throughout OPPD’s service territory and the region.
- Produce and maintain written Strategic Direction, Board-Staff Linkage and Governance Process policies that clarify the Board’s role in the decision-making process between the Board and OPPD’s employees.
- Be responsible for the hiring and appointment, as well as compensation and benefit approval, of the CEO.
- Regularly monitor and evaluate the performance of the CEO.
- Upon the recommendation of the CEO, be responsible for the appointment, as well as compensation and benefit approval, of the Vice Presidents.
- Monitor stakeholder processes, when necessary, to ensure the Board hears the strategic viewpoints and values of customer-owners and other interested stakeholders.
- Review the strategic direction policies on the timetable specified in each policy and communicate to the CEO whether the Board finds OPPD to be meeting the requirements of the strategic direction policy. Conduct a comprehensive review of the strategic direction policies every three years.
- Review and approve the Corporate Operating Plan annually.
- Approve the issuance of tax exempt debt and other forms of debt.
- Contract with an external independent auditor to audit OPPD’s finances and procedures on an annual basis.
- Contract with an independent consulting engineer and rate consultant.
- Establish rates that are fair, reasonable, and nondiscriminatory and adjusted as in a fair and equitable manner to confer upon customer-owners the benefits of a successful and profitable operation and conduct of the business of the district.
- Establish benefit plans for employees and provide oversight of investment management and

To accomplish its strategic leadership consistent with Board policies, the Board, in collaboration with the President and Chief Executive Officer (CEO), or his/her designees, shall develop and follow an agenda planning process that ensures the Board focuses on the strategic direction policies of OPPD and meets its other obligations as stated by law or policy.

Specifically:

- The Board, in conjunction with the CEO, shall develop, monitor, and regularly update a work plan comprised of initiatives, topics and issues it wishes to explore or is required to address over the next 12-month period, in order to guide OPPD staff in preparing agendas for standing committee meetings and regular Board meetings.

- The Corporate Secretary’s office, under the direction of the CEO and the Board, shall prepare and issue an agenda for each committee meeting and regular Board meeting.

- Vice Presidents, with the approval of the CEO and Chair, can make necessary changes and additions to the agendas.

- Any individual Board Member may place any matter on the agendas.

- Matters may be placed on agendas for any Board meeting 24 hours preceding the meeting, except for items of an emergency nature.

- Items may be placed on the agendas as either an Action Item or a Reporting Item. Action Items require Board approval at the regular monthly Board meetings.

- The Board Chair shall review the Board’s agendas to ensure they address Board items that have been identified on the work plan during the course of the year.

- The Corporate Secretary, under the direction of the CEO, and in coordination with the Committee Chairs and Vice Presidents, shall prepare and issue an agenda for each Board-related meeting.
The Board shall elect the Board Officers under the following terms and conditions:

- The officers of the Board shall be the Chair, Vice Chair, Secretary and Treasurer. Those Board Officers shall be elected by the Board, from among its members, annually at the Board's regular meeting in January.

- The Chair shall conduct the election, and the Corporate Secretary shall tally the votes. Any Director may place a nomination for the election of a Board Officer. No second is required. Board Officers shall be elected with the approval of a majority of those present and at least five Directors voting in approval. A tie vote will fail. A roll call vote will be taken, unless there is a request for a secret ballot. If there is a request for a secret ballot, the Board shall vote on whether to use a secret ballot by roll call vote before conducting the vote on approval of the Board Officer. No second is required.

- Board Officers shall serve for a term of one year or until the election of their successors.

- Board Officers may be removed from office during such term by the affirmative vote of five Directors at a regular meeting of the Board or a special meeting called for that purpose.

- In the event an office becomes vacant, the Board shall elect one of its members to fill the term of that office at its next regular Board Meeting, using the process described in this policy. The election to fill a vacant term may be postponed to a later meeting by a vote of the Board.
The Board Chair shall:

- Ensure that all duties imposed on them as Chair are being completed.
- Be a member of the Governance Committee and a member ex officio, nonvoting member, of all Board committees.
- Preside over and facilitate all regular and special meetings of the Board, and other meetings at which a quorum of the Board is present.
- Ensure that meeting discussion focuses on matters which, according to Board policy, are appropriate for Board consideration.
- Ensure that discussion at Board meetings is fair, open and thorough, but also timely, orderly and to the point.
- Be the spokesperson of the Board in public announcements pertaining to the Board’s conduct of OPPD’s affairs.
- Appoint the Chairs of the Standing Committees with approval of the Board.

- Ensure a process is in place for regularly evaluating the Board’s adherence to Board policies.
- Ensure the Board is represented to outside stakeholders, organizations, and other groups.
- Have no authority to supervise or direct the President and Chief Executive Officer, apart from the authority expressly granted him or her by the Board.
- Delegate his or her authority as appropriate, but remain accountable for its use.
- Perform all other actions and duties as required by law.
The Board Vice Chair shall:

- Shall serve as Chair of the Board in the event of the disability or absence of the Chair.
- Be a member of the Governance Committee.
- Perform all other actions and duties as required by law.

The Board Treasurer shall:

- The Board Treasurer may perform any of the customary duties of the Chair and Vice Chair offices, when delegated.
- Serve as the Finance Committee Chair and preside over and facilitate the Finance Committee meetings.
- The treasurer must furnish a corporate surety bond sufficient to cover all monies in his or her possession or control, but not to exceed $100,000.00, and the bond approved as to form and sureties by the Directors and filed with the Secretary of State.
- Perform all other actions and duties as required by law.

The Board Secretary shall:

- Be responsible for assuring that accurate minutes of Board meetings are prepared, in coordination with the Corporate Secretary.
- The Board Secretary may perform any of the customary duties of the Chair and Vice Chair offices, when delegated.
- Perform all other actions and duties as required by law.
The Board and its members shall act in a professional, ethical, productive, and lawful manner. Board members should avoid even the appearance of impropriety to ensure and maintain public confidence in OPPD.

Specifically:

- Board members shall conduct themselves in accordance with all laws applicable to their duties as Board members, including but not limited to duties of care, loyalty and oversight.

- Board members should conduct themselves with civility and respect at all times with one another, with staff, and with members of the public.

- Board members are expected to act in the best interest of OPPD and the customer-owners. This supersedes any conflicting duties such as advocacy for a personal cause or on behalf of interest groups and obligations to other organizations, boards or staffs. It also supersedes the personal interest of any Board member acting as a consumer of the organization’s activities.

- Board members shall not attempt to exercise individual authority over the organization except as explicitly set forth in Board policies.
  
  o Board members must recognize the limits of authority vested in them as individuals in their interactions with the CEO or with staff.

  o In their interactions with the public, press or other entities, Board members should recognize the same limitation and the inability of any individual Board member to speak for the Board or for other Board members except to repeat explicitly stated Board decisions.

- Board members shall at all times endeavor to express their individual opinions in a responsible manner.

  o Each member of the Board is expected to support the legitimacy and authority of the decisions of the Board.

  o Although it is preferred that Board members refrain from criticism of OPPD decisions, if they do so, they must make it clear that they are expressing their individual opinion, and not the opinion of the Board or other Board members, so long as it complies with the limitations set forth in these policies.

- Members should prepare themselves for all Board meetings in advance.
Board members should discourage former Board members from attempting to influence the Board, individual Board members or staff, on behalf of any third party (other than a governmental entity) from whom the former Board member is receiving compensation, on any matter that the former Board member substantially participated in during his or her tenure with the Board. This provision shall not apply to communications by a former Board member acting in his or her capacity as an individual or customer-owner and for which the former Board member receives no compensation.
The OPPD Board may establish standing committees and the Board Chair, with the concurrence of the Board, may establish ad hoc committees.

Standing committees shall assist the Board in its ongoing work and activities. Standing committees shall be composed of at least three Board members, including a Committee Chair, who shall be appointed by the Board Chair, with Board approval. The Board Chair is an ex officio member of all committees. Any Board member may attend and participate in the deliberations of any standing committee, if not a member, providing notice to the Corporate Secretary of their attendance. Each standing committee shall have a charter describing the committee’s purpose.

The standing committees of the OPPD Board are as follows:

- Finance
- Governance
- System Management and Nuclear Oversight
- Public Information

Standing committees shall meet publicly every month prior to the regular Board meeting. Standing Committee Chairs can schedule additional committee meetings as needed. If there is a closed committee meeting, the Committee Chair will present an agenda and summary report from that closed meeting at the next public committee meeting. No public comment will be taken at public committee meetings.

Ad hoc committees shall be created for a limited duration to address a specific topic of interest to the Board. Each ad hoc committee may be composed of up to four Board members, and shall include designation of a Committee Chair and a clear statement of purpose.

All Board Committees shall report back at a publicly noticed Board or standing committee meeting on its activities. Specifically:

- All committees will ordinarily assist the Board by gaining education, considering alternatives and implications, and preparing policy alternatives.
- Board committees may not speak or act for the Board except when formally given such authority.
- Board committees cannot exercise authority over staff nor interfere with the delegation from the Board to the President and Chief Executive Officer (CEO). Because the CEO works for the full Board, he or she will not be required to obtain approval of a Board committee before an executive action.
• As a general rule, items scheduled for Board action (including items requested by a Board member) shall first be presented to a standing committee for review.

• Standing committees shall be reviewed at least annually by the Board to determine whether they should continue.

• This policy applies to any group which is formed by Board action, whether or not it is called a Committee and regardless whether the group includes Board members. It does not apply to committees formed under the authority of the CEO.
The Committee chairs shall preside over and facilitate committee meetings.

Specifically, Committee chairs shall:

- Schedule and cancel any meetings, at their discretion, in addition to the monthly public committee meetings prior to the regular Board meeting.
- Review and approve the committee agendas prior to circulation of the public notice of the meeting.
- Present an agenda and summary report of items discussed at any closed committee meetings held prior to the monthly public committee meetings.
- Ensure that committee meetings focus on those issues which, according to Board policy, belong to the Board to decide.
- Ensure that discussion is fair, open and thorough, but also timely, orderly, and kept to the point.
The Board will obtain training, development and orientation to assure excellence in governance.

Specifically:

- New Board members shall receive an orientation, which will include an overview of the District’s governance policies.

- Board members shall be offered and encouraged to receive training in the skills of effective governance, communication and decision making.

- The Board Chair and Board Committee Chairs shall be offered and encouraged to receive training in the facilitation of public meetings.

- Board members shall receive training on any laws and regulations pertinent to their duties as a Director and Board Officer.

- Board members shall be offered and encouraged to receive regular training with respect to understanding trends and developments in public power and the energy industry.

In consultation with the Board Chair, the President and Chief Executive Officer (CEO) shall prepare annually an appropriate plan of training for Board members, Chairs and Officers.
Board members may review OPPD records, subject to and in compliance with applicable legal requirements, confidentiality requirements, and corporate policies.

Specifically:

- Board member requests to review OPPD records shall be forwarded to the Corporate Secretary, with a copy to the President and Chief Executive Officer (CEO) and Outside Counsel. The Corporate Secretary will be responsible to obtain and provide the requested files for review.

- A Board member may ask for and receive copies of OPPD documents. No confidential documents shall be taken from OPPD premises except with the authorization of the CEO.

- Board members shall follow the same confidentiality requirements applicable to OPPD employees dealing with OPPD documents.

- OPPD employee personnel files will not be subject to Board review except as permitted by law.

The Corporate Secretary shall maintain a log of all documents requested for review by Board members.
Members of the Board of Directors* of OPPD are eligible to receive certain compensation and benefits for their service.

Under the statutory authority granted by the below Nebraska statutes, the Board adopts the following policies:

- OPPD shall provide and contribute payment for health care benefits, the same as any other eligible active full-time employee, for any Member of the Board of Directors who elects coverage. Newly elected Members of the Board of Directors, effective January 1, 2013 and after, will be offered the same health plan benefits as other eligible active full-time employees hired January 1, 2013 and after. (Neb. Rev. Stat. Section 70-624.03)

*TERMS AND DEFINITIONS

*Member of the Board of Directors: Someone who is elected and is currently serving a term as a director on the Board of Directors of the Omaha Public Power District.
Nebraska State Statute Section 70-623 states that: “The board of directors, at the close of each year’s business, shall cause an audit of the books, records and financial affairs of the district to be made by a certified public accountant or firm of such accountants, who shall be selected by the district.”

Specifically:

- The Board of Directors is responsible for hiring the District’s external auditor. Selection of the external auditor should include input from staff, the Audit Subcommittee and others as deemed necessary.

- The process to hire the external auditor includes obtaining a contract with the external auditor. The selection of the external auditor must be approved by the Board of Directors.
Nebraska Law (Section 70–624.02, as amended) provides that “members of the Board of Directors shall be paid their actual expenses while engaged in the business of the District under the authority of the Board of Directors....” Accordingly, Board members shall be reimbursed for expenses incurred which are appropriate in the performance of their Board-related duties and consistent with their statutory obligations.

The purpose of this policy is to establish procedures relative to expenses incurred by members of the Board of Directors in the performance of their duties; to define authorizations required to incur such expenses; to ensure uniform and fair payment of expenses; and to establish procedures for securing reimbursement.

It is expected that all Board member activities related to any expenses submitted for reimbursement will comply with the “Omaha Public Power District Board of Directors Code of Ethics and Business Conduct.”

REIMBURSABLE EXPENSES

Expenses eligible for reimbursement under this policy must be actual, reasonable and customary expenses incurred while conducting Board-related duties.

- Board-related duties may include, but are not limited to, Board meetings (any official Board, Committee or related meeting), OPPD business (activities that are directly related to the necessary and required functions of the District), industry-related conferences, and training/learning events.

- Expenses may include related mileage expense, meals (including tips), lodging, transportation, business meeting/events, and other miscellaneous expenses. Expenditures for alcohol and related taxes/gratuities as well as expenses for family members or personal guests are not reimbursable.

Expenses must be documented accurately and completely, and have appropriate authorization.
TRAVEL AND TRAINING AUTHORIZATION AND APPROVAL

Each Director is authorized to travel at OPPD expense on single-day trips within the District’s service area when in his/her judgment such travel is required in connection with OPPD business.

Directors shall coordinate all other travel arrangements through the office of the Corporate Secretary. Thirty days in advance, for all business trips which require overnight accommodations and for all single-day trips by commercial transportation to points outside of the District’s service area, Directors shall complete a Trip Authorization (TA) form, including the estimated costs, the percentage to be paid by OPPD, and whether the expenditure will span multiple years.

- If OPPD representation is requested with shorter than thirty-day notice and travel is required, the Corporate Secretary shall notify Board members of the pending trip.

- Written travel and training justifications shall be distributed to all Board members in the Board packet for purposes of transparency and oversight.

The Corporate Secretary shall review the TA, and confirm consistency of proposed expenses with Board and OPPD travel policy. If the Corporate Secretary questions the appropriateness of any expense, clarification will first be sought from the respective Director. Any disputes resulting from the review shall be forwarded from the Corporate Secretary to the Audit Subcommittee for review and a final determination.

Each Director is authorized up to $3,500 during a calendar year to attend training and learning events within the continental United States when in his/her judgment such training and learning events will benefit the District. Budgeted travel and training funds shall expire at the end of each calendar year with no rollover option. If a Board member exceeds the annual authorized expenditure amount, then he/she shall reimburse OPPD within 30 days the difference between the authorized amount and actual expenditures.

Any travel outside the continental United States or any out-of-state travel to attend more than the allowed budget for training and learning will require additional approval. To obtain approval, the Director shall: (1) notify the Corporate Secretary of the travel location, purpose of the trip, date of travel, and an estimated cost; (2) the Corporate Secretary will provide the request to the Audit Subcommittee for approval; and (3) once approved by the Audit Subcommittee, the Corporate Secretary will place an item related to this travel on the next Board meeting consent agenda for full Board approval. If the request is denied, the Director may still attend the event at the Director’s expense.

EXPENSE REIMBURSEMENT

Sufficient documentation of expenses is necessary for reimbursement of applicable expenses. All requests for expense reimbursement from Directors shall:

- Be prepared on an OPPD Expense Report form and be submitted for payment within 30 days upon completion of a trip, and no later than sixty days from when any expense was incurred.

- Include an itemization of expenses, provide a brief explanation of the purpose of the expense, and include original receipts for all expenditures, with the exception of mileage, single-trip public transportation and tips on services (e.g. hotel housekeeping, door attendants or bellhops).
Meal receipts must be itemized and include the name(s) of the person(s) for whom a meal was purchased as well as their respective company when non-OPPD employees are included. Tips on service may not exceed 20% of the total bill, including tax. If a receipt cannot be obtained or has been lost, a statement to that effect shall be made on the expense report form and the reason given.

For mileage reimbursement, the business purpose, date, origin, destination and number of miles driven must be included in the supporting documentation. Business use of personal vehicles is reimbursed at the IRS standard mileage rate.

- Include a statement, signed by the Director submitting the request for reimbursement, that the expenses are actual expenses incurred while on District business and that the expenses conform to the Board Expense Reimbursement policy.

Directors shall submit their expense reports to the Corporate Secretary for review and determination that: (1) the claims for reimbursement are in accordance with this policy; and (2) the necessary budgetary funds are available for disbursement.

Any disputes resulting from the review shall be forwarded from the Corporate Secretary to the Audit Subcommittee for review and a final determination.

Only decisions of the Board acting as a body are binding on the President and Chief Executive Officer (CEO).

Specifically, in or out of the Board meeting:

- Decisions or instructions of individual Directors, officers, or committees are not binding on the CEO except in instances when the Board has specifically authorized such exercise of authority.

- In the case of individual Directors or committees requesting information or assistance without Board authorization, the CEO must refuse such requests that require, in his or her opinion, a material amount of staff time, or funds, or are disruptive. When individual Directors or committees request information or assistance without Board authorization, and the CEO refuses to provide the requested information or assistance, the CEO shall promptly inform the Board of the request and rationale for the refusal.

- Directors shall have full and open access to the CEO and the executive leadership team and may communicate directly with other OPPD employees. However, the Board as a body and individual Directors will never give direction to persons who report directly or indirectly to the CEO, with the exception of General Counsel, Director Corporate Audit, and the Senior Corporate Governance Specialist without the approval of the CEO.

- Individual Directors will refrain from evaluating, either formally or informally, the performance of any staff. The Board as a body will refrain from evaluating, either formally or informally, the performance of any staff, other than the CEO, General Counsel, and the Senior Corporate Governance Specialist.
To ensure that the authority and responsibility delegated to the President and Chief Executive Officer (CEO) by the Board of Directors is carried out, the CEO’s job performance shall be evaluated by comparing the organization’s results and the CEO’s personal performance to the policies established by the Board.

Specifically:

- The Board shall evaluate the CEO’s performance on an annual basis.

- The evaluation will be based on an evaluation of the organization’s performance and the CEO’s personal performance against the desired results established by the Board.

- The Board will use data to determine the degree to which prescribed outcomes and/or actions of Board policies are being met.

- Through the annual strategic planning process, the CEO shall propose a performance scorecard and key accountabilities for the following year that represent his or her reasonable interpretation of achieving the strategic direction policies defined by the Board.

- All policies that instruct the CEO shall be monitored at a frequency and by a method chosen by the Board.
The Board will instruct the President and Chief Executive Officer (CEO) through written policies that define the results that the organization is to achieve, and which describe the delegation of authority to the CEO.

Specifically:

- The Board shall identify and define the vision and mission of OPPD, and establish the strategic directives of OPPD, communicating them in the form of policy.

- The Board shall develop policies that define the delegation to the CEO with regard to the CEO’s authority.

- The CEO is authorized to establish all further policies, make all decisions, take all actions, establish all practices, and develop all activities related to the operations or business affairs of OPPD.

- The CEO shall manage, conduct and administer the affairs of the District in an efficient and economical manner.

- The CEO shall use prudent judgment in the exercise of the delegations and in a manner that is operationally and economically sound, serves the best interests of OPPD’s customer-owners and the community, employs prudent business practices, balances the risks and benefits of the actions, and does not expose OPPD to unreasonable risk. If the CEO reasonably determines that an activity related to the delegations presents, regardless of the size of the financial commitment: (i) a unique and significant operational risk to OPPD; (ii) a significant impact to customers; (iii) a significant impact to community relations; (iv) a significant impact to OPPD’s reputation; or (v) materially compromises the policies and goals established by the Board, the CEO shall inform the Board in a timely manner and may request that the Board take appropriate actions.

- The Board may change its delegation to the CEO at any time, subject to the conditions of the employment contract with the CEO, thereby expanding or limiting the authority of the CEO. However, as long as any particular delegation is in place, the Board will abide by the CEO’s decisions in those areas that are delegated to him or her.
The CEO shall ensure all procurement activities are performed to the highest ethical standards of conduct and in accordance with all applicable federal, state and local laws, and company policies.

Specifically:

- The CEO shall ensure OPPD’s procurement activities utilize the following attributes:

  - **Best Evaluated Procurement Selections**: Bids shall be sought, obtained, and evaluated utilizing a “best evaluated total end-use cost” considering costs and benefits of services, quality, delivery timeline, and environmental impacts including life cycle costs for disposal (if applicable). Procurements subject to the statutory process described in Nebraska Revised Statutes §§ 70-637 through 70-640 shall be evaluated and awarded as provided in the applicable statute.
  - **Bid Solicitation**: Bid solicitation shall be inclusive of responsible bidders from within the OPPD’s service territory to the extent practical.
  - **Direct Procurements**: Subject to statutory procurement standards, the District may engage in the direct procurement of goods and services without solicitation of competitive bids when it is in OPPD’s best interest even when multiple sources of supplies exist.
  - **Use of Responsible Bidders**: OPPD shall only do business with reputable and responsible bidders. A responsible bidder demonstrates the attributes of trustworthiness, quality, fitness, capacity, financial capability, safety, and experience to satisfactorily perform OPPD work.
  - **Use of Strategic Alliances**: OPPD may enter into Strategic Alliance contracts for the procurement of goods or services to the extent allowed by Nebraska Revised Statutes §§ 70-637 through 70-640. A Strategic Alliance contract is a competitively bid multi-year contract for goods and/or services in which OPPD and the supplier work collaboratively over the life of the contract to improve quality and to explore design and process improvements to reduce cost of production, service delivery, and the total cost of ownership. These benefits are shared by both OPPD and the supplier.
  - Executed contracts with authorized transactional values greater than $500,000, which are not subject to the statutory procurement process, shall be reported to the Board on a monthly basis.
Providing dedicated service regarding legislative activities that may have potential impact on the District is key to the success of OPPD. Therefore, OPPD shall provide advocacy, educational, and lobbying efforts to our local, state, and federal governments to protect and advance OPPD’s interests. Specifically, the Board supports development of legislative and regulatory policies that further the Board’s policies.

- The President and Chief Executive Officer (CEO) is authorized to develop local, state, and federal legislative, regulatory and budget positions consistent with Board policies;

- When communicating a position on local, state, or federal legislation or budget proposals, the CEO shall provide advance notice to the Board when feasible.

- As appropriate, during the legislative session, the Board shall receive monthly updates.
The President and Chief Executive Officer (CEO) shall be delegated decision making and approval authority for the acquisition, sale and lease of OPPD real and personal property in accordance with the following attributes:

**Real Property**:
- **Purchase or Lease of Real Property for District Use**: Purchase or lease of real property in support of future OPPD operational needs shall be obtained at or near fair market value.

- **Lease of Personal Property**: Leases shall be for fair market value and shall not adversely impact OPPD’s current or anticipated future operations.

The CEO shall ensure these activities are handled in accordance with all applicable federal, state and local laws.
Normal business operations require OPPD to enter into settlements of: (i) claims and/or lawsuits filed against OPPD and brought by OPPD against third parties; (ii) regulatory proceedings involving OPPD which involve the payment of District funds (e.g. civil penalties); and (iii) other disputes with third parties.

Specifically:

- The President and Chief Executive Officer (CEO) is delegated authority to enter into settlement agreements and to authorize the payment of District funds to resolve claims, lawsuits, regulatory matters and/or disputes, and the CEO is authorized to execute all necessary documents to resolve such matters in accordance with Board policy and state statutes.

- Claim settlements involving the payment by OPPD of $50,000 or more will be reported to the Board at a regular committee meeting held prior to the monthly Board meeting as required by Nebraska Revised Statute §84-713.
The Board of Directors recognizes that the District has a need to manage the physical and financial related risks associated with a complex and volatile commodity market in order to ensure reliable, competitive, cost-effective and environmentally sensitive service for our customer-owners.

*Defined in Glossary.
Managing its interactions with the environment is essential to OPPD’s ability to serve customers, create value for stakeholders, and contribute to the well-being of the communities it serves and its employees. The OPPD Board of Directors recognizes the scientific consensus that climate change is occurring and that greenhouse gas emissions, including carbon dioxide, from human activity contribute to climate change impacts.

Therefore, OPPD shall:

- Operate in an environmentally responsible manner and strive for the continuous improvement of its environmental performance.
- Conduct all of its operations (including operations such as building services and transportation) in a manner that strives for the goal of net zero carbon production by 2050.
- Conduct its business in a manner that meets all environmental regulatory standards, and go beyond compliance where practical.
- Be transparent by measuring and reporting its environmental performance on OPPD’s website.
- Engage customers and stakeholders to promote energy conservation and efficiency and minimize environmental impact.
- Advocate and educate local, state and federal governments to protect and advance OPPD’s environmental interest.
- By year end 2027, achieve an approximate 3,500,000 ton annual reduction in CO₂ emissions at the North Omaha Station site relative to OPPD’s 2013 benchmark of 3,960,179 tons at the station.
OPPD shall develop and maintain a diverse and inclusive workplace reflective of OPPD’s core values that engages and inspires employees to commit to the vision and mission of OPPD.

OPPD establishes a goal to achieve top-quartile performance in employee engagement for similar sized companies.

OPPD shall:

- Engage its workforce in personal and professional development.
- Maintain and communicate written policies that define procedures and expectations for staff and provide for effective handling of grievances.
- Bargain in good faith with the official agents of represented employees and comply with Collective Bargaining Agreements.
- Conduct an annual engagement survey and provide a report of results to the Board.
- Provide an annual report to the Board on OPPD’s Affirmative Action Plan.
Integrated System Planning is the ecosystem of planning processes used to efficiently integrate the transmission system, supply and demand side resources, and the increasingly complex distribution system. Through Integrated System Planning efforts, OPPD will continually plan for, adapt to, and enable both the needs of our customers and the rapidly transforming electric industry. Successful planning will ensure both a reliable electric system and the resiliency of the system and its components to prepare for, withstand, respond to, adapt to and quickly recover from a non-routine event.

OPPD shall:

- Ensure that year-round supply-side and demand-side resource capacity exceeds forecasted load in compliance with resource adequacy and planning reserve margin requirements of OPPD’s regional balancing authority.

- Ensure compliance with applicable planning related North American Electric Reliability Corporation Reliability Standards including consideration of Essential Reliability Services.

- Ensure planning accounts for potential extreme weather events, changes to demand-side and supply-side regional resources and extended periods of low energy production by variable energy resources.

- Compute resource adequacy metrics that quantify the ability of OPPD’s resources to meet its forecasted electric demand:
  
  o Measure the frequency with which a system’s demand is expected to be met by system capacity over a period of time.
  
  o Measure the percentage of total energy that a system is projected to be able to serve over a period of time.
It is essential that OPPD maintain the public trust and confidence in the integrity and ethical conduct of its Board of Directors and the OPPD employees. Therefore, to ensure the public interest is paramount in all official conduct, the Board shall adopt and update, as necessary, a Code of Ethics and Business Conduct (the “Code”). OPPD shall also maintain and enforce a code of conduct applicable to all employees.

Among other things the Code shall:

- Require high ethical standards in all aspects of official conduct;
- Establish clear guidelines for ethical standards and conduct by setting forth those acts that may be incompatible with the best interests of OPPD and the public;
- Require disclosure and reporting of potential conflicts of interests; and
- Provide a process for: (i) reporting suspected violations of the Code and policies; (ii) investigating suspected violations of the Code and policies; and (iii) providing an annual report to the Board.
Economic prosperity is foundational to cultivating vibrant and thriving communities we serve. OPPD’s strategic leadership and active participation in regional economic development initiatives will create a favorable environment to attract new business and help existing business customers to expand and support workforce and community needs. OPPD’s economic development strategy will adapt and change to maximize value for the region as the utility and the region’s advantages and opportunities evolve.

Therefore, OPPD shall exercise leadership and participate in economic development to:

- Attract, retain and expand businesses
- Serve as a community leader and trusted partner to organizations and leaders on local, regional and statewide initiatives and activities in economic development, including workforce and community needs
- Offer and promote effective tools, resources, programs, products, services and rates to educate our business customer owners and support economic growth, sustainability, cost savings and/or vitality
- Assist with site development and marketing to plan or best optimize our energy system for businesses and industrial customer-owners
Robust information management and security practices are critical to effective risk management and to ensure regulatory compliance, business resiliency and customer-owner satisfaction.

OPPD shall safeguard and protect data, information and assets from inappropriate use, improper disclosure and unauthorized release.

OPPD shall take prudent and reasonable measures to ensure:

- **Information Security:** OPPD will implement processes and methodologies to protect print, electronic, or any other form of information or data from unauthorized access, misuse, disclosure, destruction, or modification.

- **Customer Privacy:** Except as provided by law or for a business purpose, OPPD will not disseminate customer-owner information to a third party for non-OPPD business purposes without customer-owner consent.

- **Records Management:** The efficient and systematic control of OPPD records inclusive of, identification, classification, storage, security, retrieval, tracking and destruction or permanent preservation of records.

- **Compliance:** Comply with contractual and legal requirements through the use of technical controls, system audits and legal review.
As a publicly owned utility, OPPD is committed to engaging its customers, the community and other stakeholders*.

OPPD shall:

- Share context with customer-owners for key decisions.
- Use an integrated, clear and transparent engagement process that:
  - Provides meaningful ways for customer-owners to participate and provide feedback.
  - Is representative of the interested and impacted customer-owner segments that OPPD serves.
- Continuously evaluate and improve its outreach and engagement processes.

*Defined in Glossary.
The Retirement Plan Funding Policy is intended to provide guidance for funding and budgeting for pension obligations, demonstrate prudent financial management practices, re-assure bond rating agencies, and provide transparency to stakeholders on how the Retirement Plan (“Plan”) is funded. OPPD intends to provide for systematic funding of future benefit payments for Plan participants and their beneficiaries.

Therefore:

- A nationally recognized actuarial firm should be utilized to perform the analysis to determine the annual required contribution to the Plan.

- The discount rate to be used to determine the Plan’s current funded status and required contribution will be established with the assistance of an investment consultant.

- OPPD intends to achieve long-term full funding of the cost of benefits provided by the Plan by funding the actuarially determined annual required contribution each year.
OPPD shall maintain an enterprise risk management (ERM) program to perform an independent oversight function of the District’s risk management activities to ensure significant risks are identified, assessed, managed, and reported through organizational policies, procedures, and processes to maintain risk exposures within agreed upon risk tolerance levels.

The Board of Directors shall:

- Ensure the District is maintaining an ERM program that fulfills this policy.
- Review the District’s most significant risks on a quarterly basis to validate assumptions and assess the impacts of changes since initial risk review.
- When necessary, request additional explanation of the risk from the corresponding member of OPPD’s executive leadership team responsible for the risk or request additional expertise to supplement the review.
- Review additional ERM information, related risk activities, and strategies on an as-needed basis.

Nuclear Oversight Committee Report

PURPOSE

The Nuclear Oversight Committee provides a regular oversight of items related to the Fort Calhoun Station (FCS) nuclear plant.

FACTS

In addition to safe and secure dry cask storage of fuel, the required Preventative Maintenance tasks and Surveillance Tests, the following major decommissioning activities were conducted:

- Reactor vessel segmentation continues as the project’s highest priority activity. Cutting of the concrete support structure surrounding the vessel presented the project team with technical challenges but is now complete. Following this work, the team turned its focus to severing the loop to vessel interface. The focus over the next month shifts to installation of the lifting system that will be used for the remainder of the project.

- Backfill of the Turbine building basement is underway. Weather dependent, the work is scheduled for completion in the coming weeks.

- The Nuclear Regulatory Commission (“NRC”) recently completed the second regularly scheduled inspection of 2023. The inspectors reviewed documentation, observed several meetings, and performed observations of project activities. The inspectors exited with positive comments as well as opportunities to further improve.

1.00 GENERAL

Request for Proposal (RFP) No. 6046 is for the material procurement contract for replacement baskets and seals utilized in the North Omaha Station Unit 5 (NO5) air preheaters. The contract is for the supply of materials only and does not include installation. An installation contract is planned to be awarded in August 2023. Installation is planned to occur during the scheduled unit outage in the spring of 2024.

There are two layers of basketed heat transfer elements within the NO5 air preheaters (hot end and cold end) that require replacement to maintain reliability. Replacement baskets for both layers are included in this contract, along with replacement seals.

The contract was advertised on March 16, 2023. No addenda or letters of clarification were issued. Bids were received and opened on April 12, 2023. One company submitted a bid. The Engineers estimate for this work was $1,030,000. The bid prices are as follows:

- Arvos Ljungstrom LLC (Base Bid) $1,017,768
- Arvos Ljungstrom LLC (Alternate Bid) $1,022,980

The alternate bid included a design improvement which increases resistance to soot blower cleaning damage while maintaining similar thermal and pressure loss performance compared to the existing basket design.
2.00 COMPLIANCE WITH CONTRACT TERMS AND CONDITIONS

RE: Request for Proposal No. 6046 – NO5 air preheater replacement baskets and seals

Ladies and Gentlemen:

We have reviewed the single proposal received from Arvos Ljungstrom LLC for the above-referenced RFP. The Arvos proposal includes a performance guarantee that should be evaluated by the District. Arvos also presents an alternate payment schedule and proposes that the payment schedule serve in lieu of a performance and payment bond. This contract is for materials only, and if the District is assured there are no subsuppliers or subcontractors who might make claim for non-payment by Arvos, then a payment schedule, with OPPD owning the materials at invoicing, will be sufficient. Arvos also proposes to utilize the terms and conditions of the previous agreement with OPPD dated December 12, 2018. Those terms are legally acceptable, but if Arvos is awarded the contract, those terms will need to be revised to conform to this project.

Subject to the foregoing comments and the District's technical and economic evaluation, the Arvos proposal is acceptable for consideration by the District's Board of Directors for the award of this contract.

RE:   Request for Proposal No. 6048 – NO4 air preheater baskets and seals replacement

Ladies and Gentlemen:

We have reviewed the three (3) proposals received in response to the District's RFP No. 6048 and provide the following legal opinion.

The proposal of ME&I Construction Services does not acknowledge receipt of the District's letter of clarification No. 1; OPPD should obtain a letter from ME&I stating that it acknowledges receipt of the District's letter of clarification No. 1. This proposal also submits revisions to the District's Construction Services Agreement. The revisions include a limit of liability to 100% of the contract price and changes to the indemnity section of the agreement. In our opinion, these revisions are legally acceptable and do not render the proposal non-responsive to the contract documents.

The proposal of TEiC Construction Services proposes that the applicable contract will be a master services agreement between OPPD and this vendor dated May 13, 2019, together with a special conditions addendum included with the proposal. The TEiC proposal also submits additional exceptions and clarifications to the contract documents, including a limit of liability to the total contract price. The District may accept the use of the prior master services agreement, with the special conditions document, as the governing agreement for this project. However, the agreement will need to be conformed to this particular project. In our opinion, this proposal is legally responsive.

The proposal of Total-Western submits exceptions and clarifications to the contract documents, including revised warranty, insurance, and payment terms. These revisions are legally acceptable and are subject to the District's evaluation.

Subject to the foregoing comments and the District's technical and economic evaluation, all of the proposals received in response to the District's RFP No. 6048 may be considered by the District's Board of Directors for the award of this contract. The form of performance and payment bond for the successful bidder also must be approved by the Board.

Power with Purpose; Natural Gas Generation, Energy Delivery and Solar Updates

PURPOSE
Provide updates on Power with Purpose projects for May 2023.

TURTLE CREEK STATION & STANDING BEAR LAKE STATION FACTS
a. Engineering, procurement, and construction activities are in progress. As all procurement and material receipt is not complete, the teams continue to monitor and work through supply chain, resource, and schedule challenges including delays.

b. At Standing Bear Lake Station, preparations are underway on the site heavy haul road and in the engine hall for the upcoming move of engines and generators into the engine hall. In the substation area, horizontal bus fabrication is in progress and yard compaction is being verified to support installation of rock.

c. At Turtle Creek Station, exhaust and stack parts for units one and two are being assembled and set and cable tray supports for the electrical packages are being installed. In the substation area, fencing is being erected and work continues on duct bank runs, jumpers, and potential and current transformers.

ENERGY DELIVERY FACTS
a. All construction associated with the Sarpy Southwest Transmission Project has been completed and is ready for energization. Property restoration and landowner settlements are the next steps for project close-out activities.

SOLAR FACTS
a. The 81-megawatt Platteview Solar facility in Saunders County continues to make progress. AES and their engineering, procurement, and construction (EPC) contractor, Blue Ridge Power, are working on various civil work activities to including site access, cut and fill, laydown and office areas, and perimeter fence erection. Solar field build out is expected to begin this summer. Construction on the interconnection substation also continues to progress.

b. The industry continues to seek further details and guidance for the Inflation Reduction Act (IRA) from the Department of Treasury and Internal Revenue Service (IRS). In light of this, OPPD staff continue to work with industry experts, including financial, tax, legal, and suppliers, to evaluate these policies and understand how to optimize the pursuit of solar deployment for customer owners.

c. Staff continue to track and maintain a development pipeline of potential projects, informed by ongoing discussions with project developers, suppliers, and other industry experts.

d. OPPD staff continue to engage with local jurisdictions to support the development of solar regulations and provide education on solar technology.
NORTH OMAHA CONVERSION AND EXTENSION PROJECT FACTS

a. Fabrication of the North Omaha Station Unit 5 natural gas and fuel oil capable burners is in progress at the manufacturing facilities. Preparations for receipt and storage of the burners and associated components began during the March 2023 planned outage.

b. The Title 132 landfill permit revision for the North Omaha Station ash landfill closure was submitted to the Nebraska Department of Environment and Energy. The submittal included the 90% design package for the landfill closure.

c. Fabrication of the electric aux boiler is in progress. The designated area in the turbine building is being prepared to support installation of the boiler.
