

# Circuit 277 Power Quality Improvement Project

## Project Description:

OPPD is committed to delivering affordable and reliable power to our customer owners. Over the next several months, OPPD and our contractors will be trimming trees and replacing aging infrastructure to reduce the number of momentary outages.

This power quality improvement project will include a rebuild and replacement of poles and wires in your neighborhood. This may also include the addition of a few new poles.

This project will be done in three (3) phases beginning September 2023 and running through March 2024. Barring any weather and unavoidable delays.

## Underwood Ave to Blondo St - 52nd St to 66th St

**Project Start Date: September 2023**

**All Phases completed March 2024**

Crews and vehicles may be marked with their company logos.

# Circuit 277 Power Quality Improvement Project

## Project Description:

OPPD is committed to delivering affordable and reliable power to our customer owners. Over the next few months, OPPD and our contractors will be in your neighborhood trimming trees and replacing aging infrastructure to reduce the number of momentary outages.

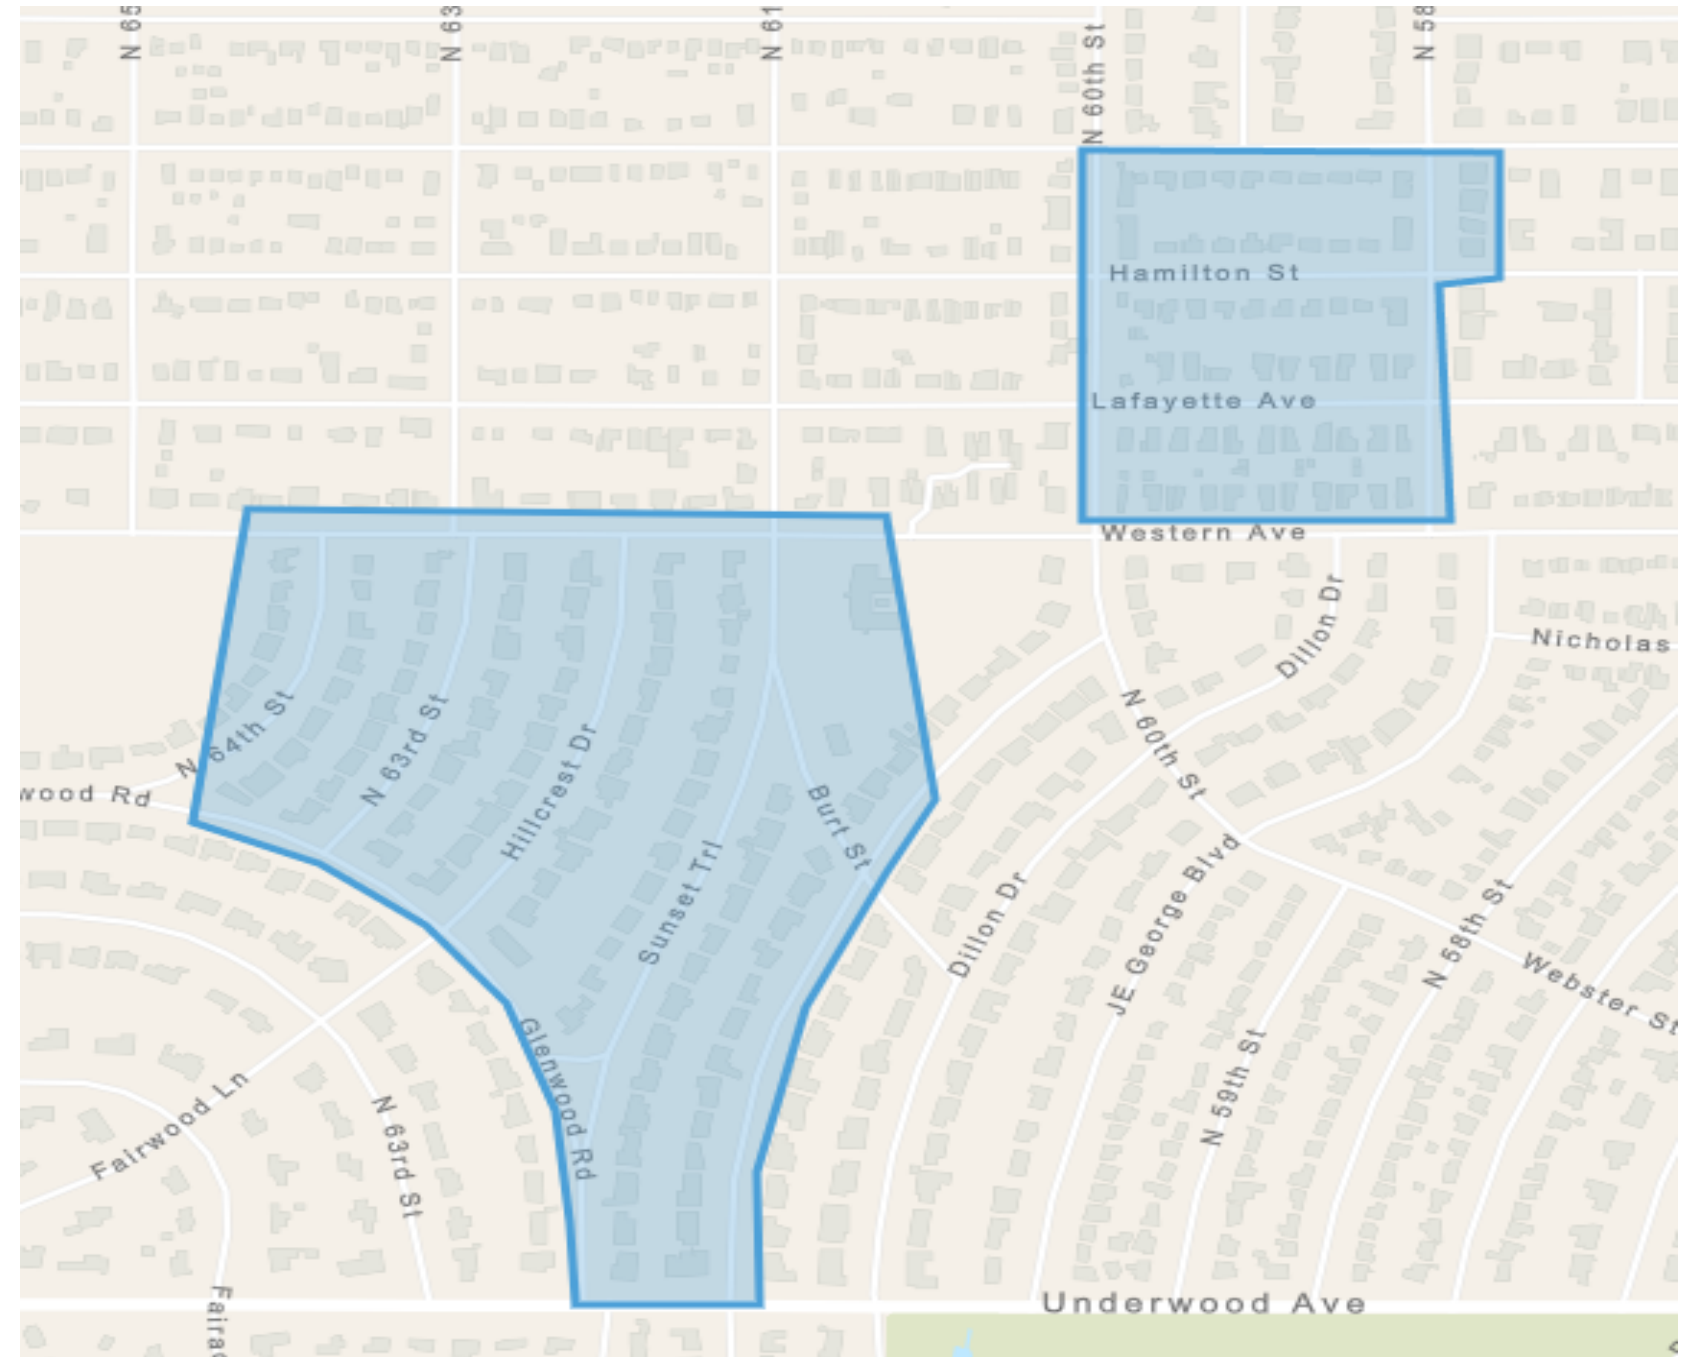

This power quality improvement project will include a rebuild and replacement of poles and wires in your neighborhood. This may also include the addition of a few new poles.

# Circuit 277 Power Quality Improvement Project

Phase III

**All Work is Completed!**

**Work runs between Underwood Ave & Western Ave and N. 52 St to JE George Blvd**

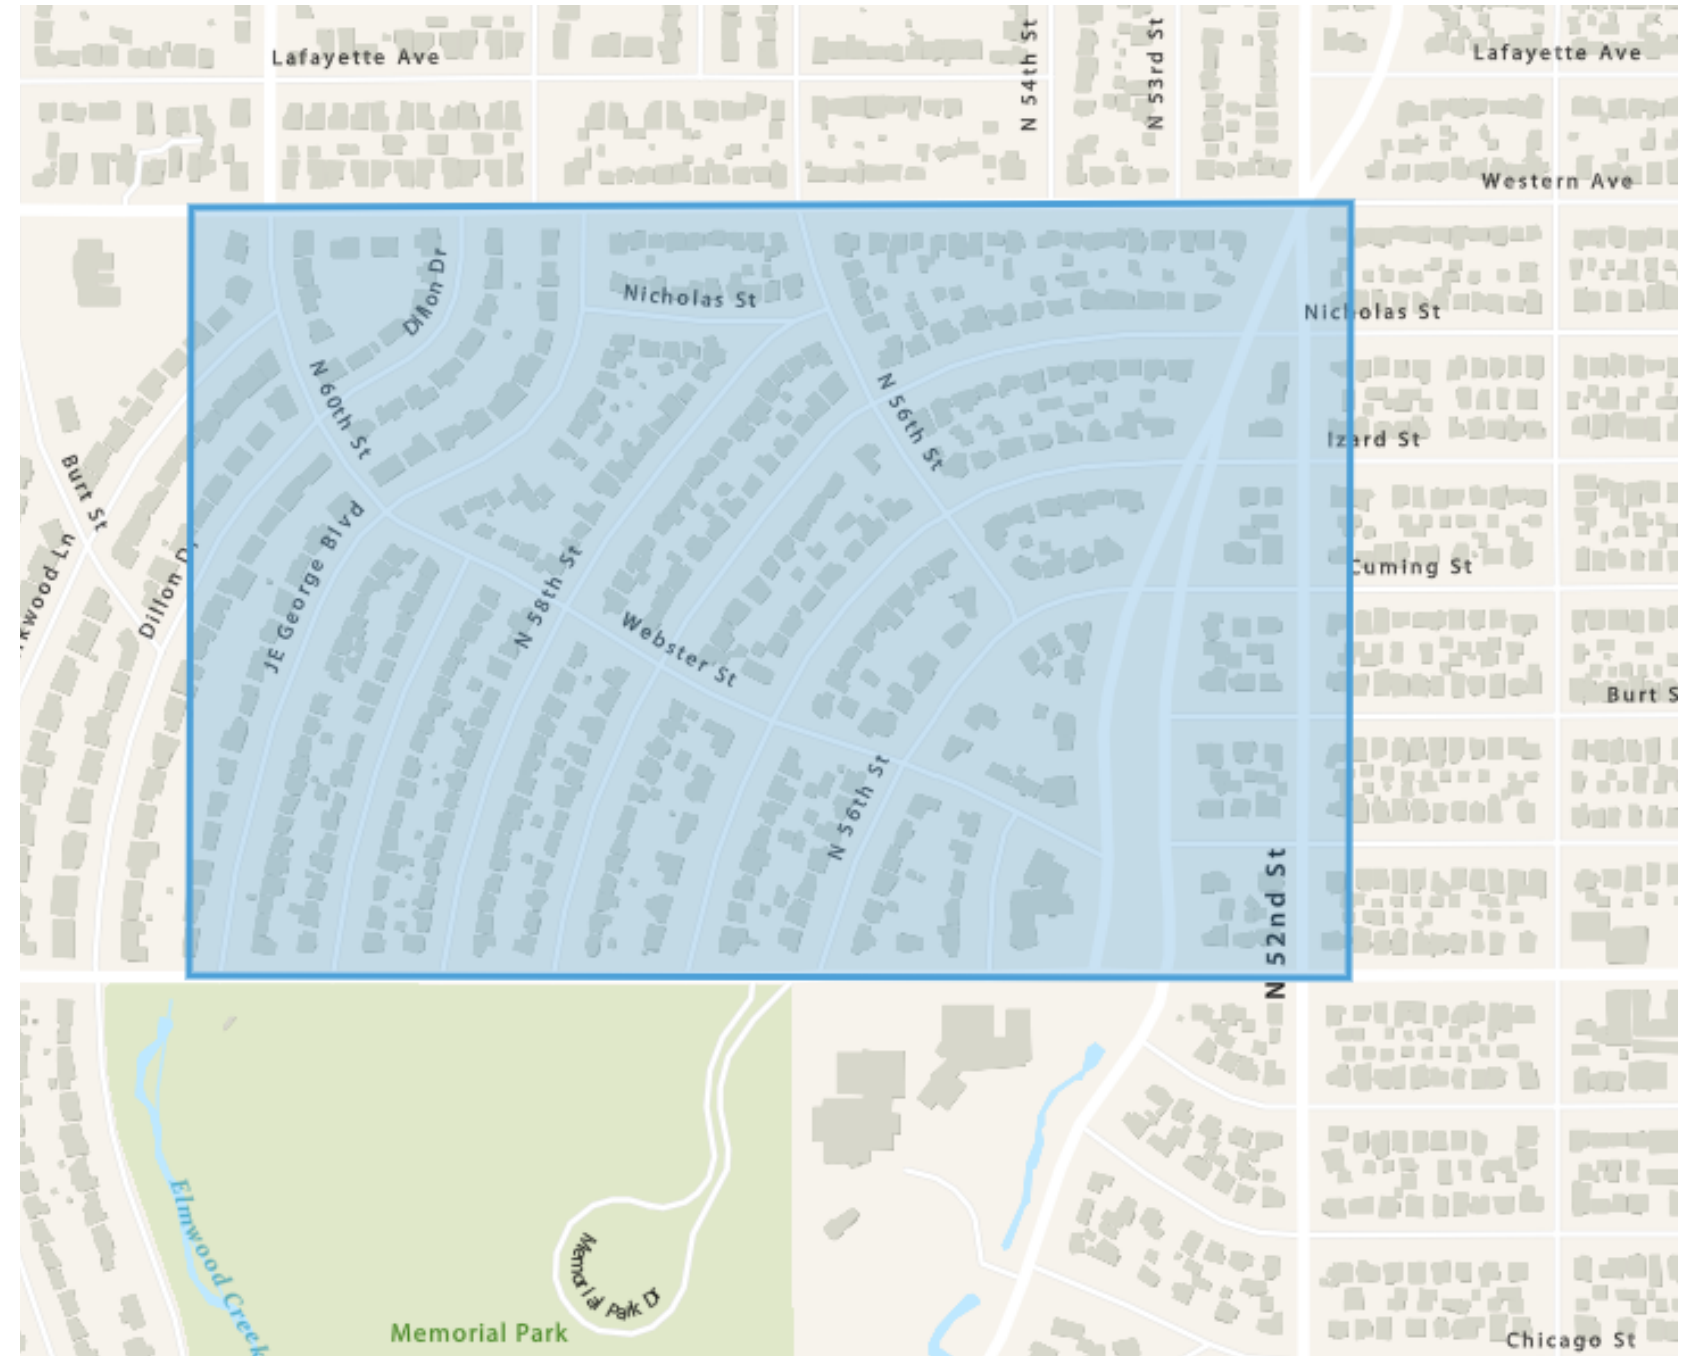

## Project Description:

This power quality improvement project will include a re-build and replacement of poles and wires in your neighborhood. This may also include the addition of a few new poles.

November Project Update: Tree trimming is complete! You will start seeing Olsson surveying crews staking necessary locations as we start the construction phase of the project. This work to start around November 16, 2023.

**February Project Update:** Due to the extreme cold and snow in January, this part of the project is taking a little longer.

Work to begin November 2023 and go through March 2024, barring weather or other unavoidable delays.

Crews and vehicles may be marked with their company logos.
