Capacity Factor for Renewables is 48.0%

Capacity Factor for Community Solar is 23.5%

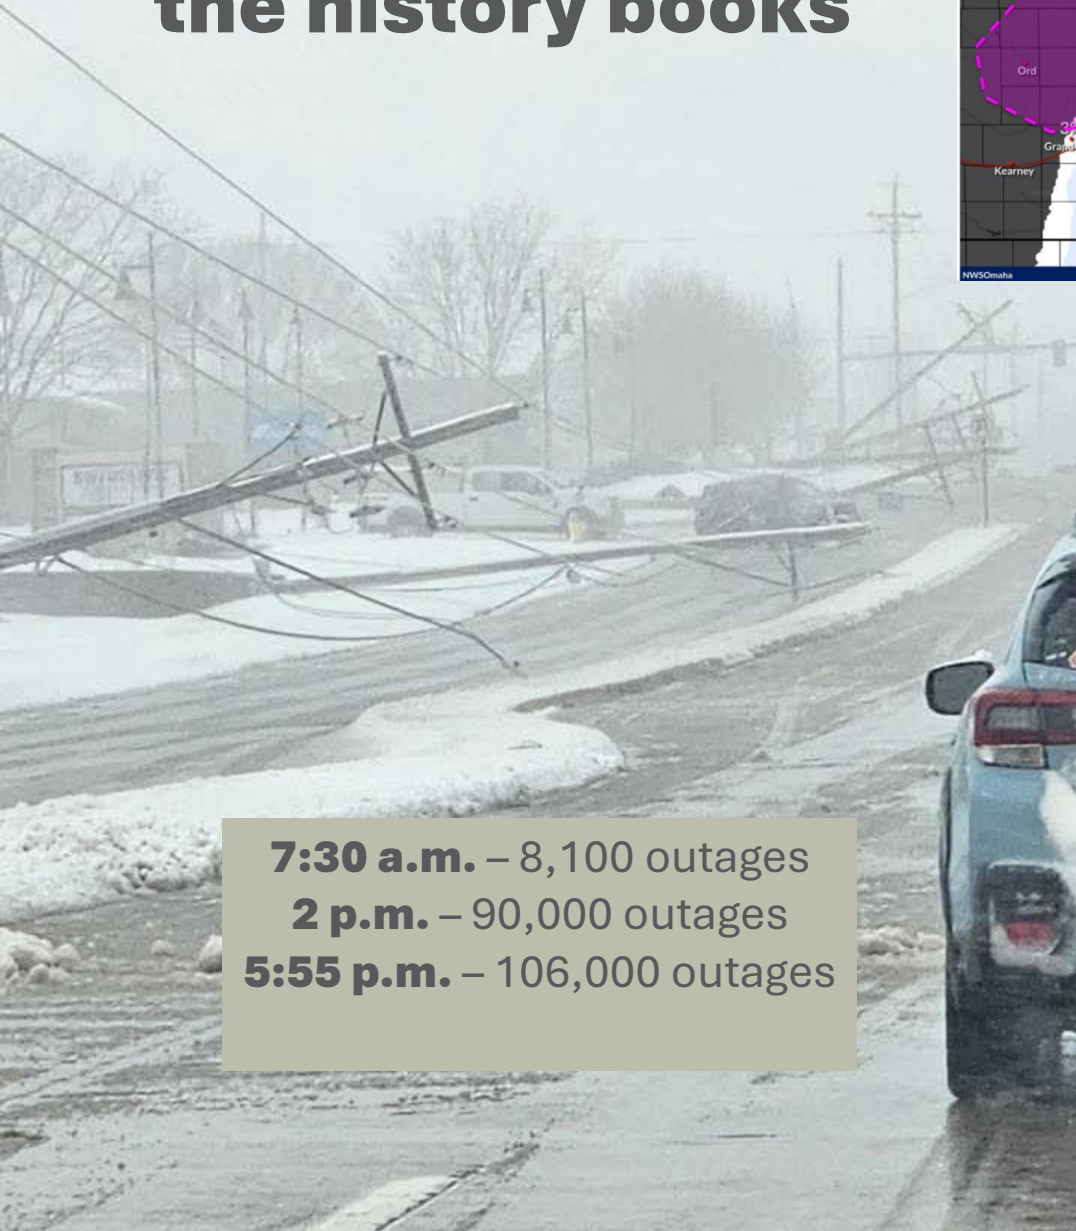

Capacity Factor for Platteview Solar is 19.7%

Capacity Factor for Wind is 47.4%

# Another storm for the history books

Rain turned to sleet and snow, circling wires with thick heavy coats of ice. Wind gusts of 70-plus mph toppled poles across the districts with rural communities north and west of the metro hardest hit.

**7:30 a.m.** – 8,100 outages  
**2 p.m.** – 90,000 outages  
**5:55 p.m.** – 106,000 outages

**David Green, area field supervisor, reports:** Distribution lines down as far as the eye can see.

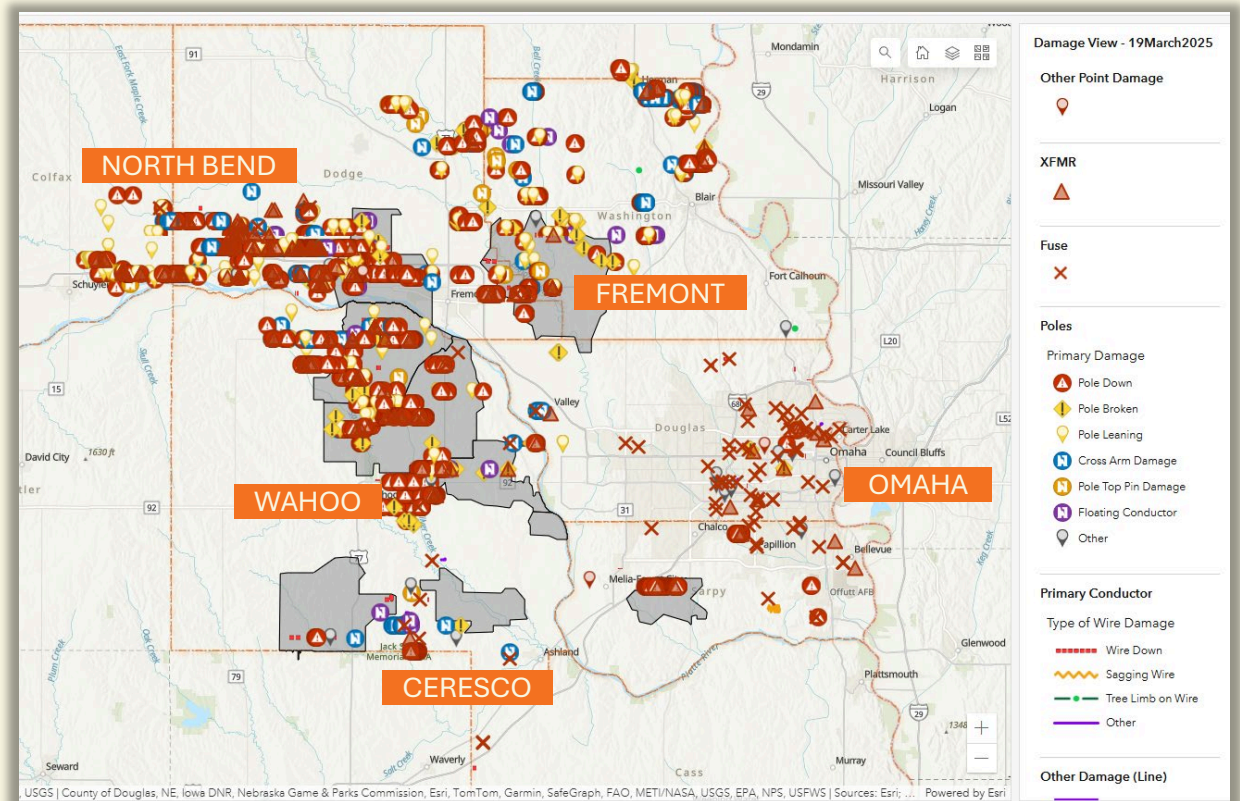

# 500-YEAR ICE EVENT

1,524

Number of **distributions** poles that needed replacement – 3.5 times the number of the July 2024 storm.

71

Number of **transmission** poles that needed replacement – five times the number of the July 2024 storm.

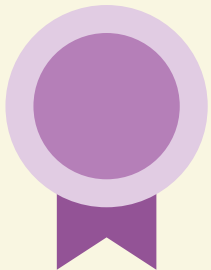

# OPPD SAFETY & PREPAREDNESS RECOGNITION

---

## **StormReady® Community Partner**

The National Weather Service designated OPPD as a StormReady® Community Partner for our work supporting storm preparedness. A formal presentation honoring OPPD with this designation will occur on April 21.

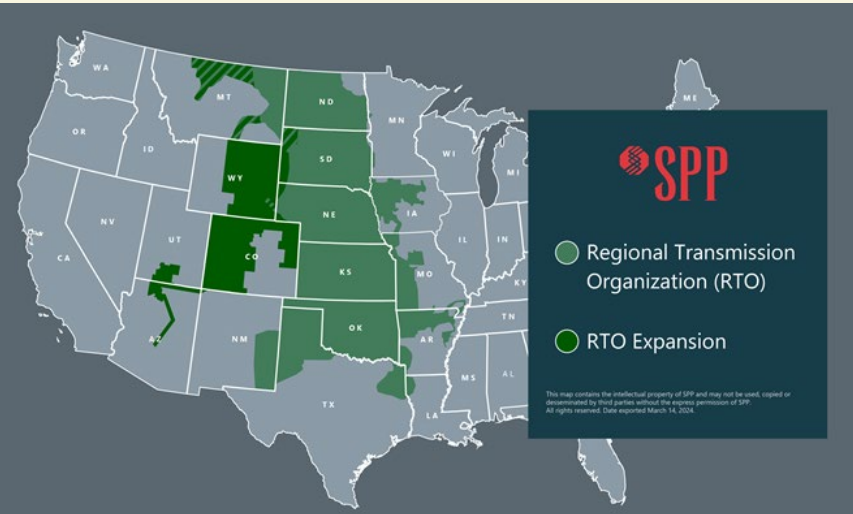

## **Nebraska's Safest Company with Distinction & Workplace Safe Driving Award**

OPPD was selected by the National Safety Council – Nebraska Chapter based on the strength of our safety logs and programs. OPPD will be honored at the National Safety Council – Nebraska Chapter's Celebration of Safety award luncheon on May 14.

# SOUTHWEST POWER POOL (SPP) REGIONAL TRANSMISSION ORGANIZATION (RTO) WEST EXPANSION

- **Approval Granted:** SPP received Federal Energy Regulatory Commission (FERC) approval in March to expand its RTO into the Western Interconnection.
- **Historic Milestone:** SPP will be the first RTO to operate in both the Eastern and Western Interconnections.
- **New Members:** Seven Western utilities will join the RTO in April 2026.
- **Strategic Growth:** The expansion supports SPP's *Aspire 2026* plan and brings reliability, market, and cost benefits.
