

Williams/Via

RESOLUTION NO. 6738

WHEREAS, the twelve existing expansion joints on Nebraska City Station Unit 1 are original equipment and are at the end of their useful life and normal wear has degraded the ability of the joints to move freely which will eventually threaten unit reliability; and

WHEREAS, Management solicited sealed bids for this work and Management and General Counsel have evaluated the two (2) proposals received for this project; and

WHEREAS, the proposal of Extreme Precision Industrial Contractors LLC is the only legally and technically responsive bid.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Omaha Public Power District that the proposal of Extreme Precision Industrial Contractors LLC for RFP No. 6225, Nebraska City Station Unit 1 Expansion Joint Replacement, in the amount of \$1,836,510, is hereby approved and the bond of such bidder is accepted and approved.

MEMORANDUM

Date: November 28, 2025

UO-2025-014

From: S.A. Eidem

To: T. R. Via

Subject: Nebraska City Station Unit 1 Flue Gas Duct Expansion Joint Replacement from Economizer to Air Preheater

1.0 GENERAL

Request for Proposal (RFP) No. 6225 is for the material supply, fabrication, and installation of fabric expansion joints for Nebraska City Station Unit 1. Twelve (12) expansion joints between the economizer and the air preheater are to be installed during the upcoming Spring 2026 planned outage. To support the fabric expansion joints, duct flanges and frames are being installed to allow for future replacement.

RFP 6225 was advertised on October 8, 2025. Two (2) addendums and two (2) letters of clarification were issued. The bids were opened on November 20, 2025 and two (2) companies submitted bids. The Engineer's estimate for this work was \$2,300,000 for the base bid. The bid prices are as follows:

COMPANY	PRICE A – Base Bid
Process Barron	\$1,581,190
Extreme Precision Industrial Contractors LLC	\$1,836,510

2.0 COMPLIANCE WITH CONTRACT TERMS AND CONDITIONS

OPPD's legal counsel determined the proposal received from Extreme Precision Industrial Contractors LLC was legally responsive. The Process Barron proposal was determined not to be legally responsive.

3.0 COMPLIANCE WITH TECHNICAL REQUIREMENTS

Only the proposal obtained from Extreme Precision Industrial Contractors LLC was determined to be compliant with the technical requirements. Their proposal was complete and fully accounted for all items included in the scope of work. The proposal from Process Barron was incomplete and omitted information requested in the RFP.

4.0 RECOMMENDATION

Based on compliance with the legal and technical requirements of this RFP, it is recommended the contract be awarded to Extreme Precision Industrial Contractors LLC.

RE: Request for Proposal No. 6225 – Nebraska City Station Unit 1 Expansion Joint Replacement (“RFP No. 6225”)

Ladies and Gentlemen:

We have reviewed the two (2) proposals received in response to the Omaha Public Power District (“District”) RFP No. 6225 and provide the following legal opinion:

The proposal of ProcessBarron contained numerous commercial and technical items that were incomplete, unclear, or inconsistent with the District’s RFP terms, each of which the District is seeking clarification on (including but not limited to: inclusion of freight costs, safety questionnaire content, acknowledgement of drawings, lack of performance and payment bond, taxes, scheduling, inclusion of scaffolding, and insurance costs). All such items would need to be resolved and evaluated by the District prior to potential Board of Directors (“Board”) evaluation. However, the ProcessBarron proposal also included the ProcessBarron General Terms & Conditions (“T&Cs”) intended to apply to their proposed work; many of which are inconsistent with the District’s standard contract terms and pose an unacceptable risk to the District. The inclusion of the ProcessBarron T&Cs renders the proposal legally non-responsive, and the Board should not consider the proposal for the award of this contract.

The proposal of Extreme Precision Industrial Contractors, LLC (“Extreme”) contained numerous commercial and technical items requiring clarification. With Extreme’s responses to the District (including revisions to certain proposal terms), the Extreme proposal is legally responsive and may be evaluated by the District. We note that the guaranteed completion date for delivery of materials is one (1) month later than the District’s desired completion date, needing further evaluation by the District.

Subject to the District’s technical and economic evaluation, the Extreme proposal may be considered by the District’s Board for the award of RFP 6225. The ProcessBarron proposal is

legally non-responsive and therefore is unable to be considered by the Board. The bond of the successful bidder also must be approved by the Board.

Best,

Omaha Public Power District
BOARD OF DIRECTORS

Action Item

December 18, 2025

ITEM

Nebraska City Station Unit 1 Flue Gas Duct Expansion Joint Replacement from the Economizer to the Air Preheaters.

PURPOSE

Issue labor and material supply contract for installation of fabric expansion joints.

FACTS

- a. The twelve existing expansion joints within this scope are original equipment at the end of their useful life. Normal wear has degraded the ability of the joints to move freely which will eventually damage the duct work and threaten unit reliability.
- b. Installation of the twelve (12) fabric expansion joints at Nebraska City Station Unit 1 is scheduled for a Spring 2026 planned outage.
- c. Two (2) bids were received in response to Request for Proposal No. 6225. Only the bid from Extreme Precision Industrial Contractors LLC was determined to be legally and technically responsive.

ACTION

Authorization by the Board to award a contract to Extreme Precision Industrial Contractors LLC for material and labor services to install fabric expansion joints at Nebraska City Station Unit 1 in the amount of \$1,836,510.
