

Solar Rebate Program

Terms and Conditions

January 2024

PROGRAM RULES AND DETAILS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Qualifications for Program

Rebate recipient must be an OPPD customer with OPPD account(s) in good standing. The person or entity receiving a rebate *may not* qualify for other related rebates in the same calendar year.

Rebate Funding Requirements

All rebates will require pre-approval by OPPD to ensure payment. OPPD's pre-approval must be requested before ordering any material or starting any work at the project site, including demolition work.

General Terms and Conditions

1. This program is subject to change or cancellation by OPPD without notice.
2. Each rebate amount is \$2,000.
3. OPPD reserves the right to verify sales transactions and inspect projects prior to and after installation.
4. OPPD reserves the right to install a metering device on existing and new equipment to verify energy production.
5. Rebates are available on a first-come, first-served basis.
6. OPPD reserves the right to limit rebates. Refer to the Section below titled "Additional Criteria and Disclaimers" for established rebate limits.
7. Submitting incomplete or missing information may delay processing of the rebate.
8. The customer/contractor certifies that each solar project complies with all federal, state and local safety, building and environmental codes.
9. OPPD is granted the right to publicize a rebate recipient's name as a participant in the Solar Rebate Program, unless such rebate recipient opts-out of such publicity by specifically stating otherwise in writing and forwarding such notice to ProductsandServices@oppd.com.
10. Falsifying any information may lead to cancellation of this and future rebate applications, a claim by OPPD for the return of any rebate payments and/or the exercise by OPPD of available legal remedies.
11. Recipient agrees to retain sole ownership of or transfer to OPPD all Renewable Energy Credits and any other environmental benefits associated with recipient's solar photovoltaic system (the "System").
12. Recipient agrees that they will not enter into an agreement or arrangement with any third party for the use of the recipient's System for any market services including but not limited to energy, capacity, spinning reserves, supplemental/non-spinning reserves, frequency, voltage or inertial regulation, and other ancillary services.

What to expect after receiving pre-approval

- After the pre-approval, the pre-approved rebate amount will be reserved for 120 days.
- If an extension is needed for a pre-approved rebate amount, you must notify OPPD and have an extension approved prior to the expiration date in order for rebate funds to continue to be reserved. After the 120th day from the pre-approval, if you have not obtained a prior extension in writing, funds will no longer be reserved and the project will need to be resubmitted and approved to ensure funding.
- A dated and itemized invoice with quantity, manufacturer, model number and cost for each piece of equipment must be submitted within 30 days of completion of the relevant project in order to receive a rebate payment. (Labor does not have to be itemized on a per-unit basis.)

Project Requirements

1. Systems must be installed or sold by a current Participant in the OPPD Customer-Owned Generation (COG) Trade Ally Program.
2. Minimum System size is 3 kW. System size is determined as the maximum power export capability (kW_{AC}) of the System.
3. All arrays must have azimuths between 90° and 270° in order for the project to be eligible for a rebate.
4. New Systems are eligible for a rebate if they meet or exceed the minimum System size. Expansions of existing Systems are eligible for a rebate if the aggregate System size exceeds the minimum System size and a rebate was not given for the original System.
5. All inverters and photovoltaic panels must be new, not used.
6. The System must be approved by OPPD, interconnected to the OPPD grid, and attached to a non-mobile structure on a permanent foundation.
7. The System must be approved for construction by OPPD prior to submission of invoice to OPPD.
8. Rebate applications must be submitted on behalf of the recipient by a current Participant in the OPPD COG Trade Ally Program.
9. Rebate applications must be received by OPPD within 90 days of project completion and cannot be for interconnection applications submitted prior to January 1, 2023.
10. Project completion shall be within 120 days of OPPD pre-approval in order for rebate funding to be available. Any project completed after 120 days may no longer be funded.

Additional Criteria and Disclaimers

1. If the System is removed from the OPPD service territory or disconnected from the OPPD grid within 10 years of installation, the applicant may be subject to a prorated forfeiture of the rebate received.
2. OPPD reserves the right to limit any rebate payment to not exceed 50% of the total material/equipment cost for the project.
3. Rebates are payable to person or entity specified in the rebate application.
4. Only one rebate may be paid per calendar year for a given address or OPPD premises.
5. A Participant in the OPPD COG Trade Ally Program will not be eligible for and shall not retain any rebate issued by OPPD under the Solar Rebate Program.
